

Co-Star Organisation

Beyond Industry 4.0

Currently a core of 5 members and now open to current and future leaders of projects, businesses and organisations from across the globe - from grass roots to multi-nationals & government.

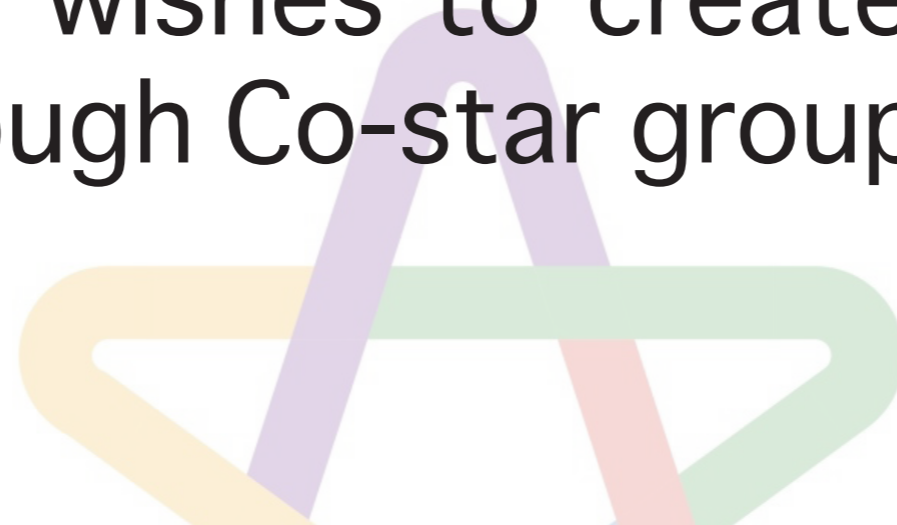

Only people who's intentions are seated in a pure heart and mind will join us.

Meetings will be an open source sharing of visionary ideas.

A global community will be formed.

Ideas which Co-star wishes to create will be turned from vision to reality through Co-star group. Some potential options follow.

Time line: 2017 to 2050 = 33 Years

Our solution is to create a global network of small manufacturing businesses which are connected by common purpose and who support each other by open source sharing of knowledge and resources.

The aim is to develop in to creative and multi-disciplinary communities within Cities and natural settings.

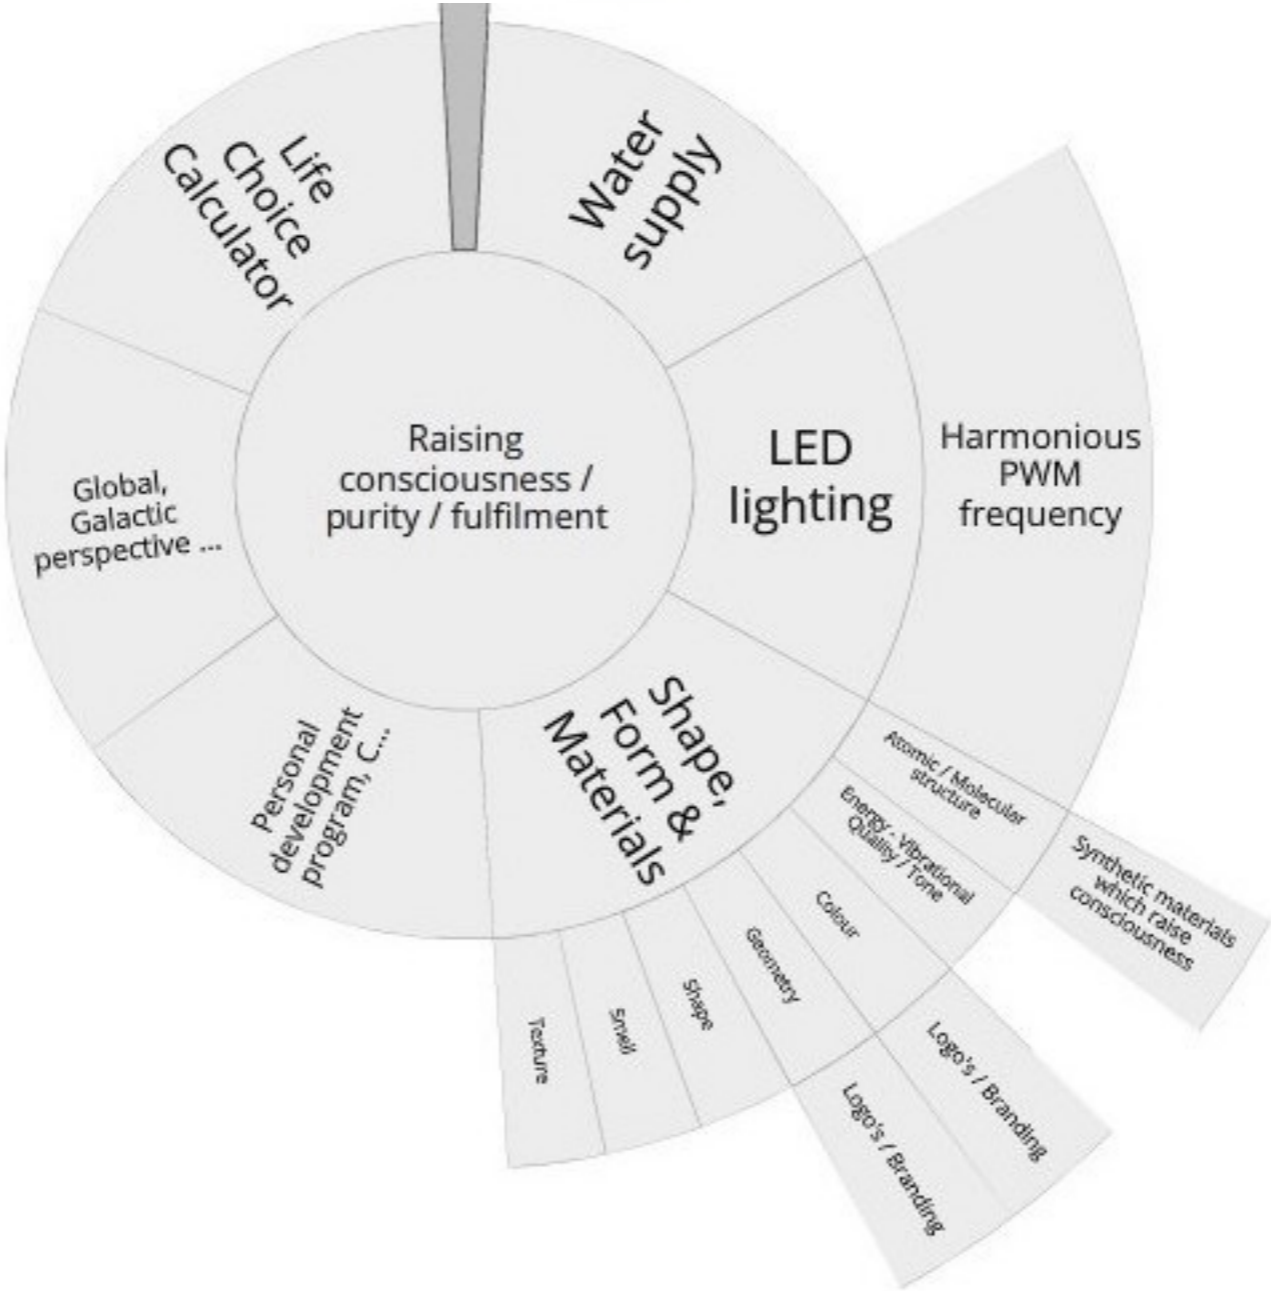

We're looking for people, community leaders, who wish to join us to create these independent yet interconnected localised businesses.

Using the sociocratic method, a 30 hour working week, automation of mundane tasks and a transition to creative positions - The first step is to create a pollution and near cost free energy supply - limited by the need for taxation to fund societal developments, cost of hardware, maintenance & distribution.

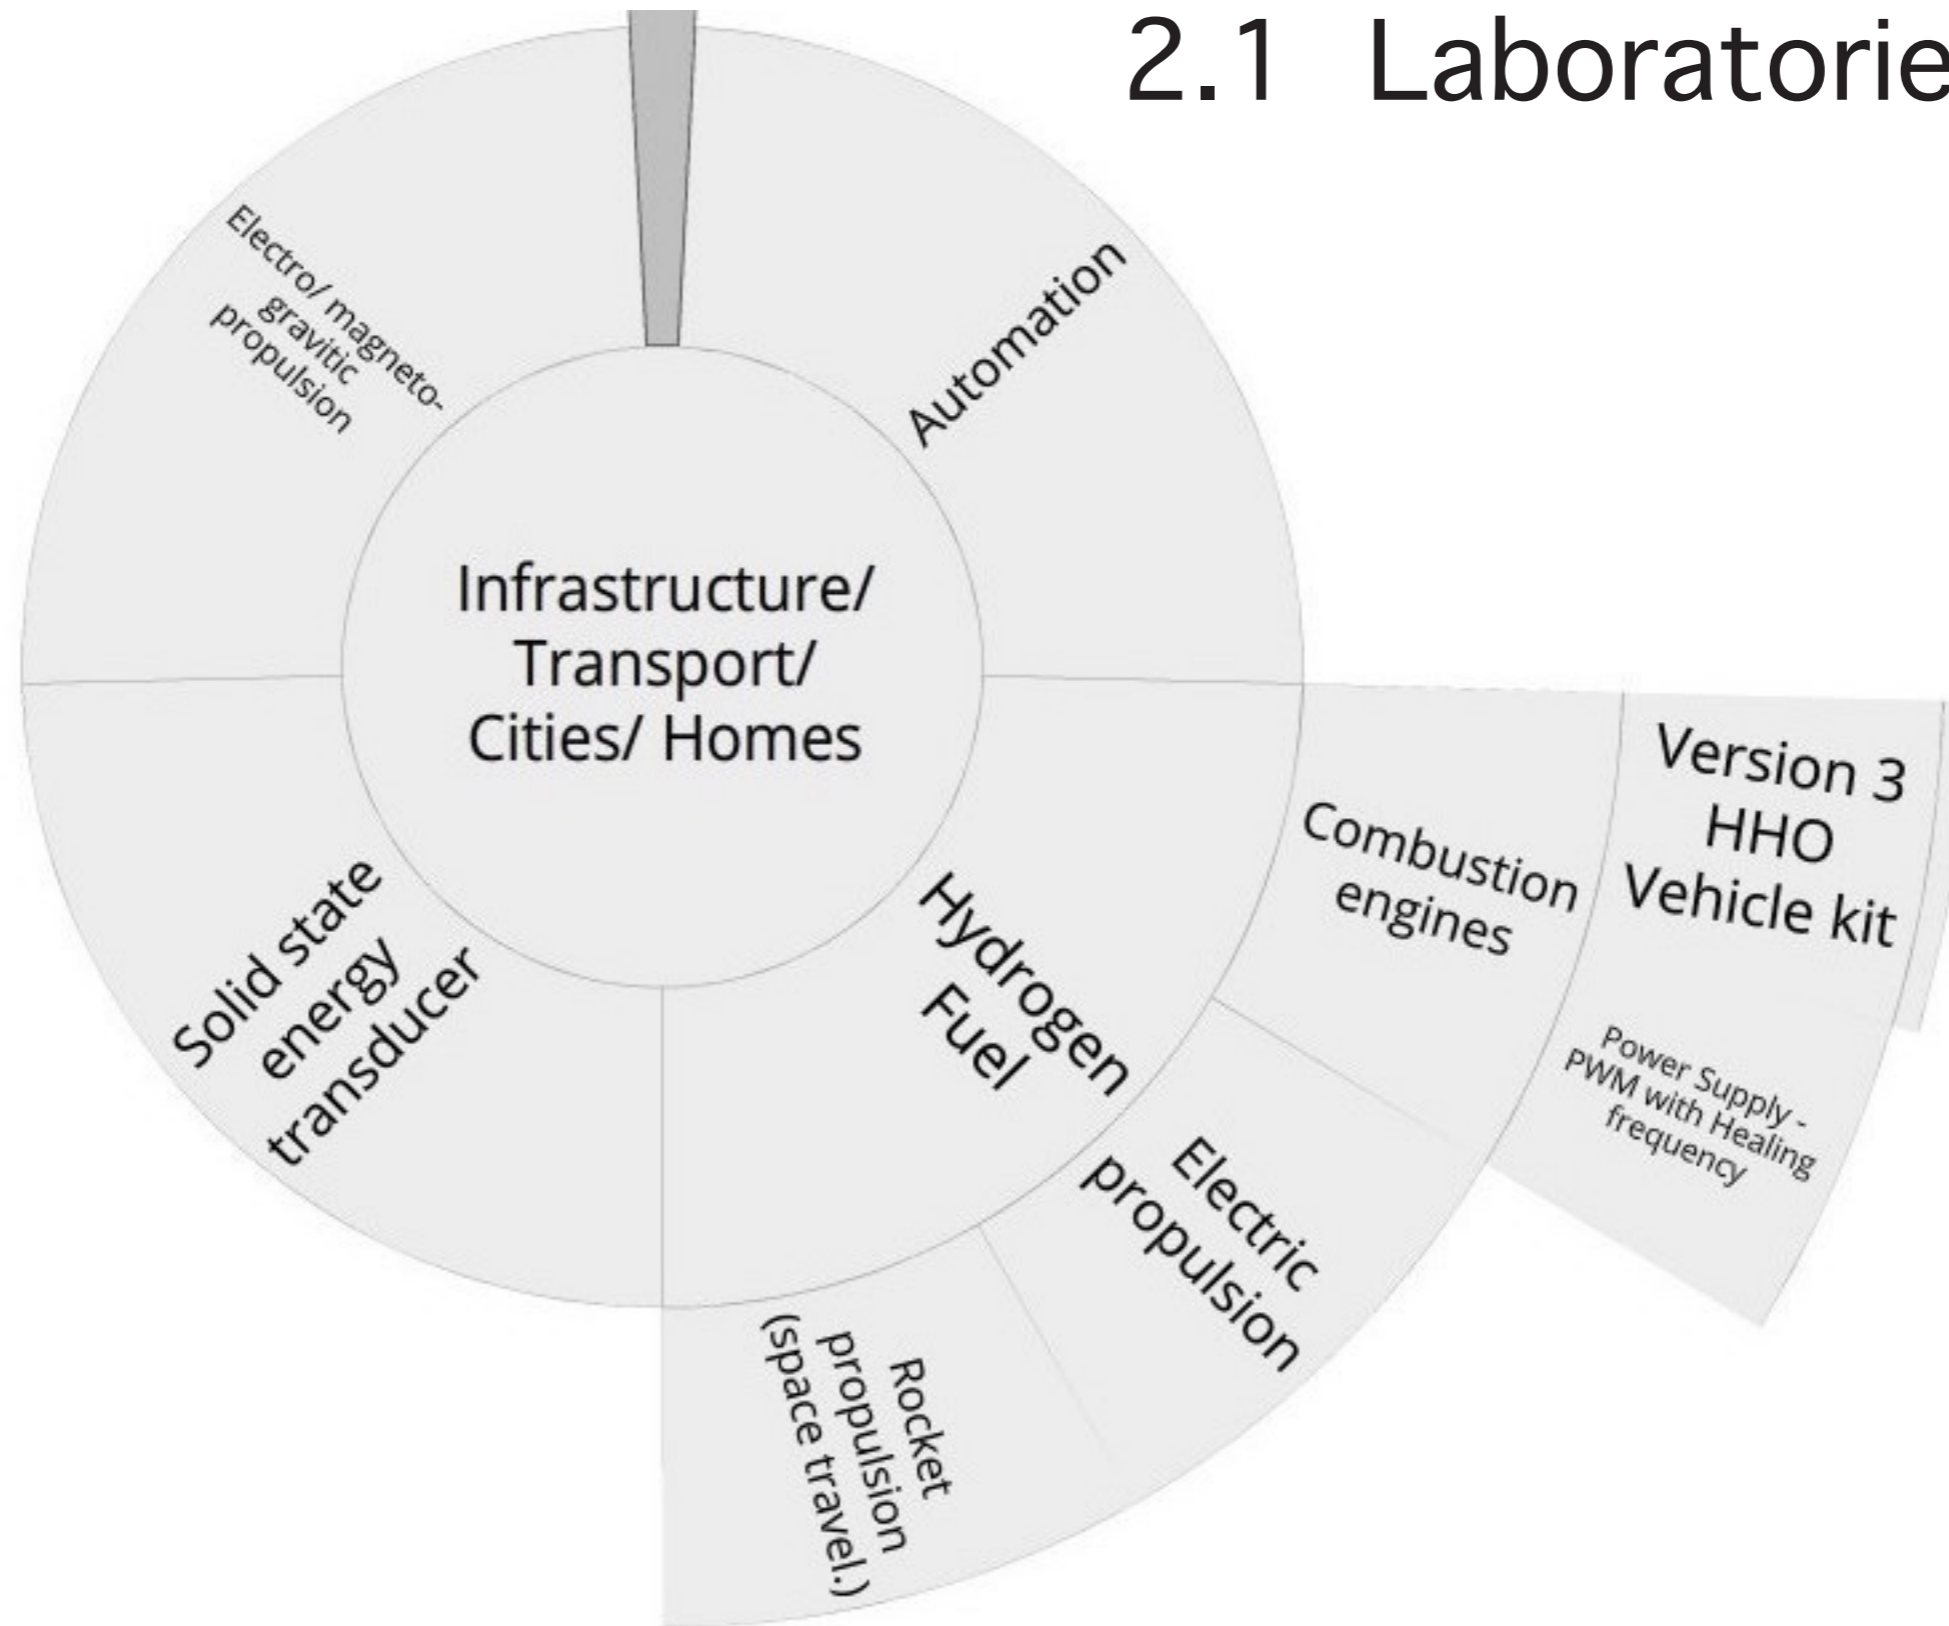

Our premises will also double as co-working spaces for the wider community.

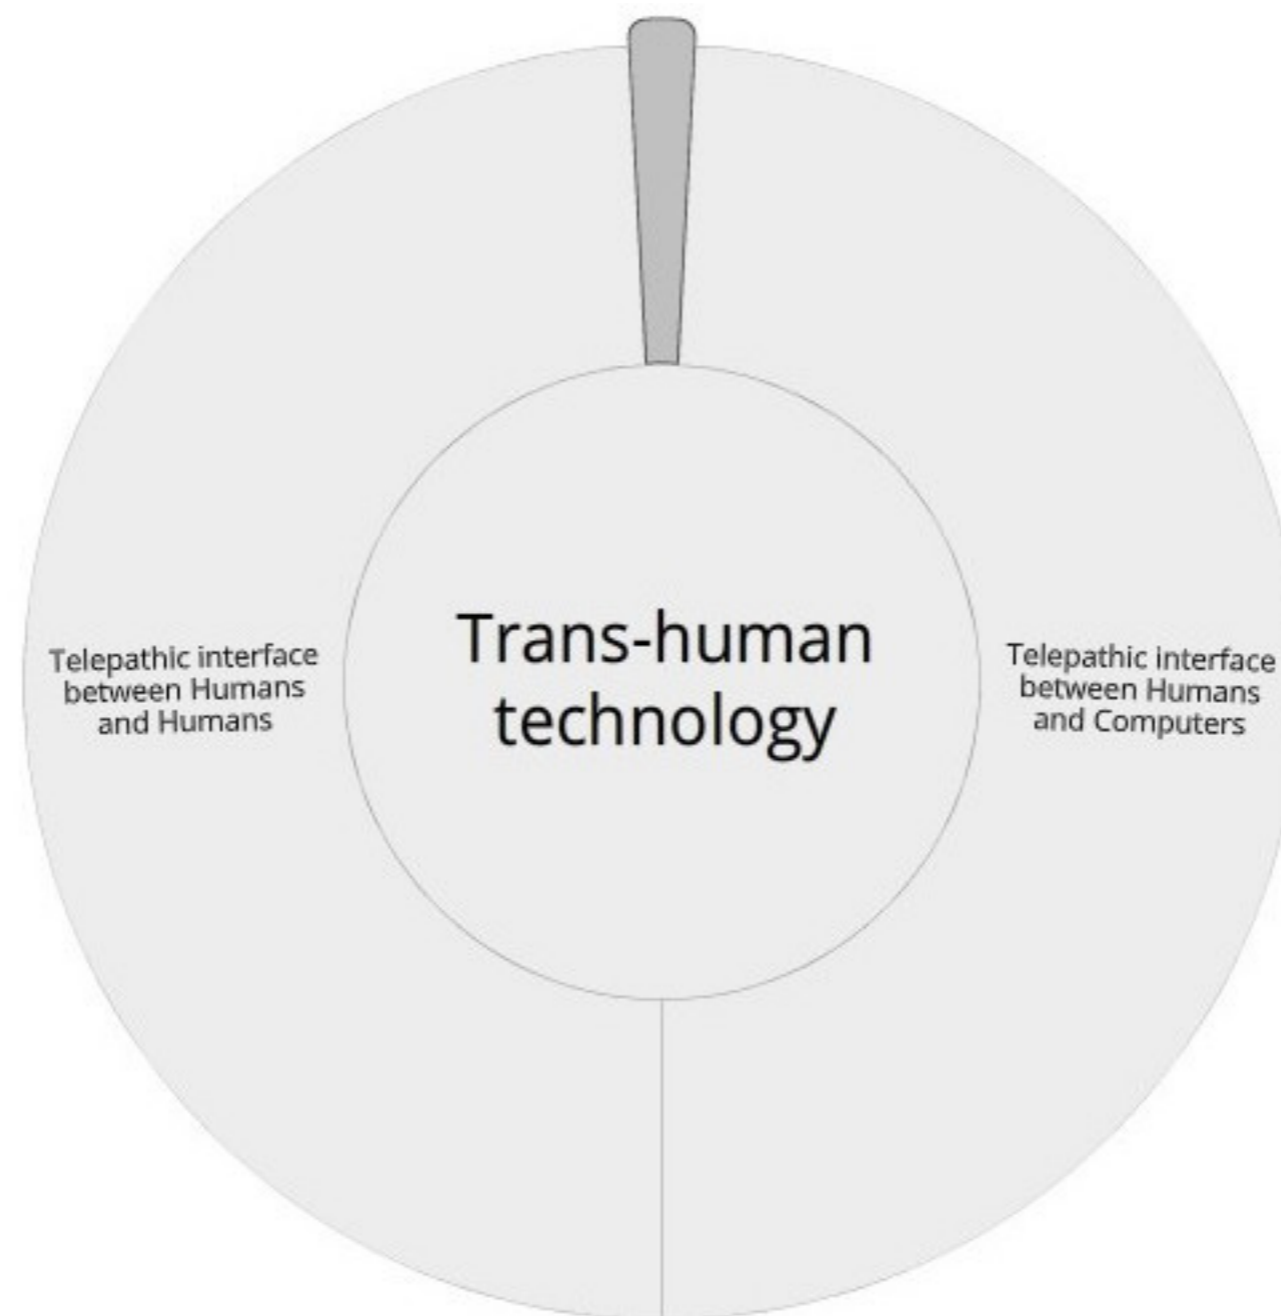

2.1 Laboratories

2.1 Laboratories

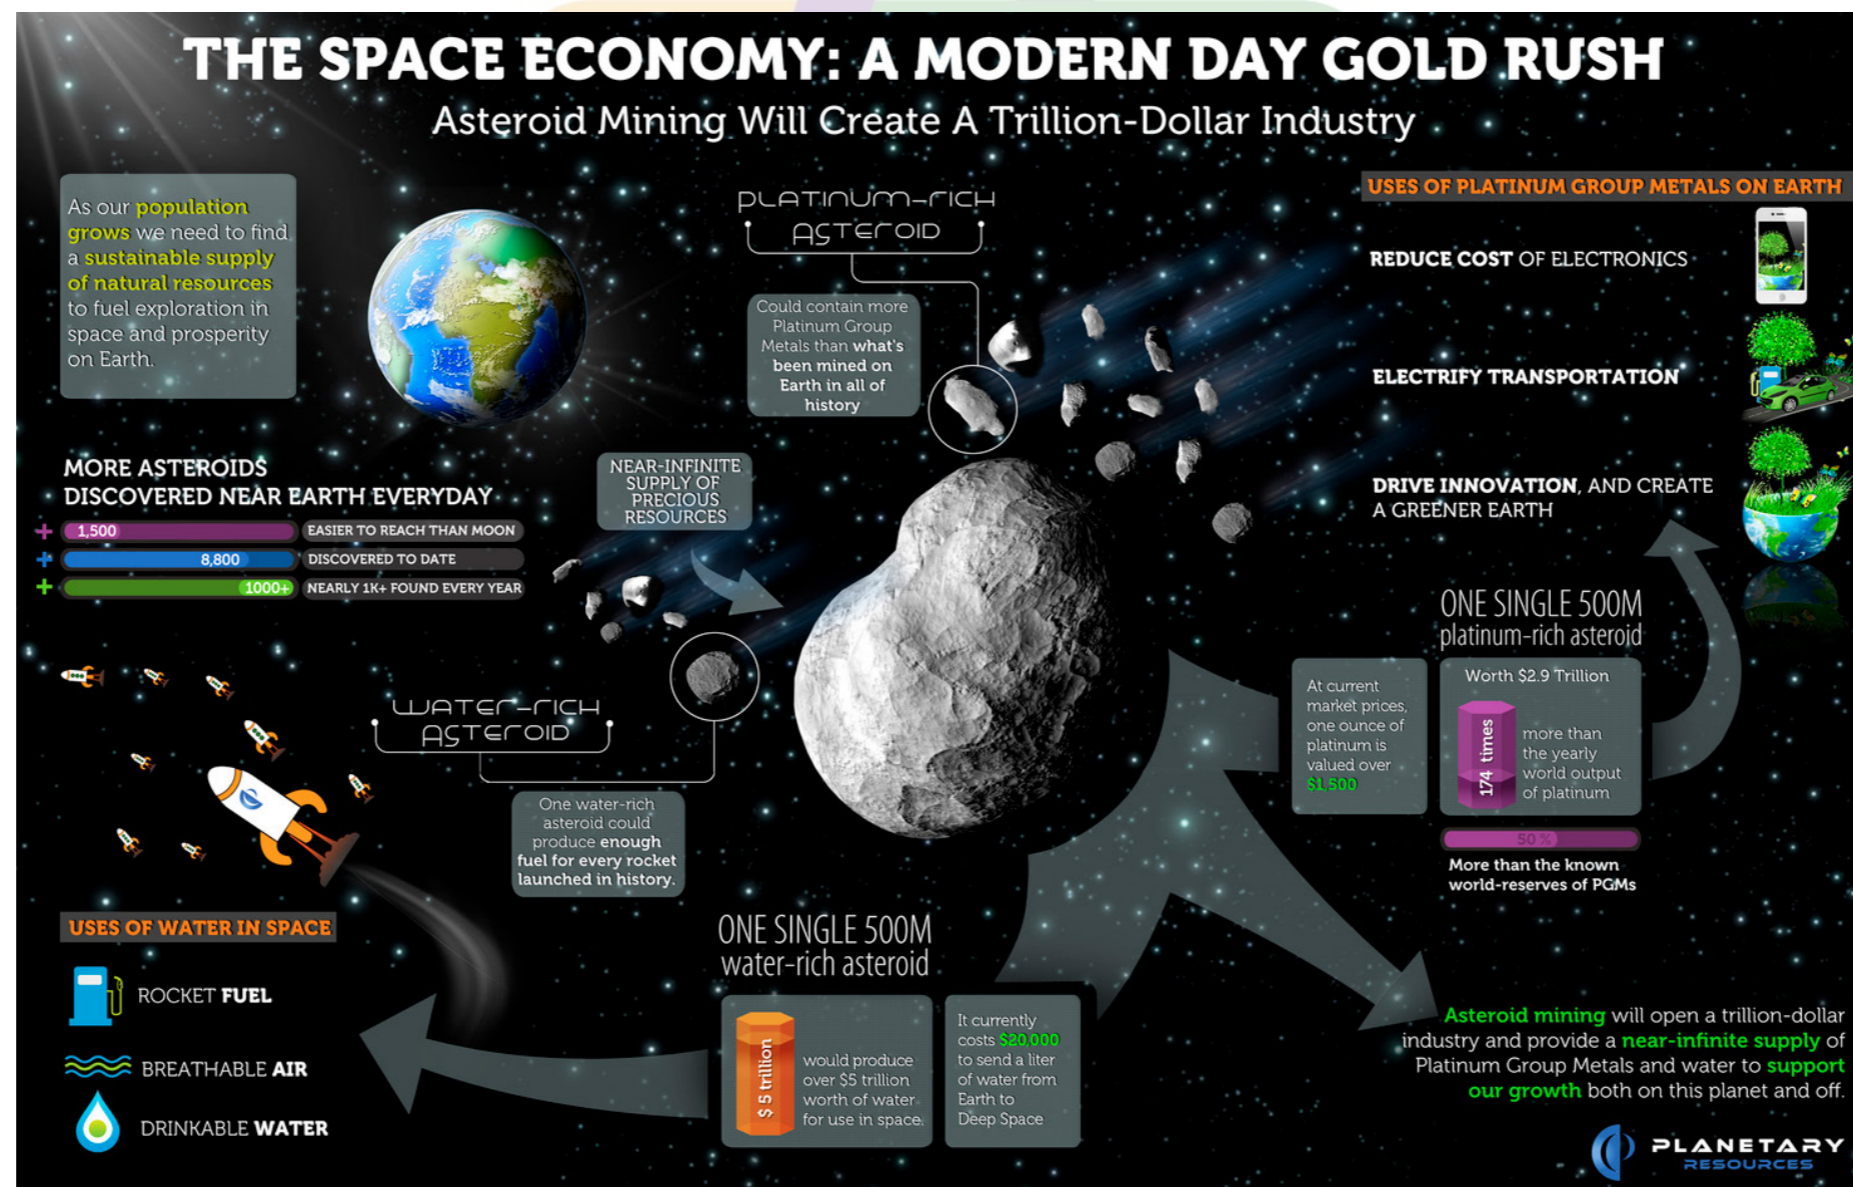

2.1 Laboratories

2.2 Resource Extraction

- Mining of natural resources on Earth, asteroids and other planets, using methods which are beneficial for all life.

2.3 Farming

- Industrial hemp cultivation using methods which improve soil conditions.

2.4 Materials Processing

Creation of materials which raise consciousness

- Processing of raw hemp

- Processing of metal ores

2.5 Manufacturing

Clean Tech

- Pollution free energy for transport & grid power supply by 2050 www.co-starctech.eu

Space Engineering

- Mining technology
- Propulsion & transportation systems.

2.6 Construction

- Property construction using materials and geometry which raise consciousness.

*Beyond the mist of Fire
of Destruction lys Genius
in all men & Women.*

*Some children are born
Genius & others are bestowed
with fire in utero.*

*I see a day where all of humanity
operates through the fullness of their Genius.*

*NOT just for
Our Children...
But for the Children
Of Our Children...
AND For the brothers &
Sisters of every fair Planet.
...AND in hope of the Connection and Co-operation
of the brothers & Sisters
From Planets Beyond that
Which We call our Home:
Our own Planet EARTH**
