

Enkuro Software

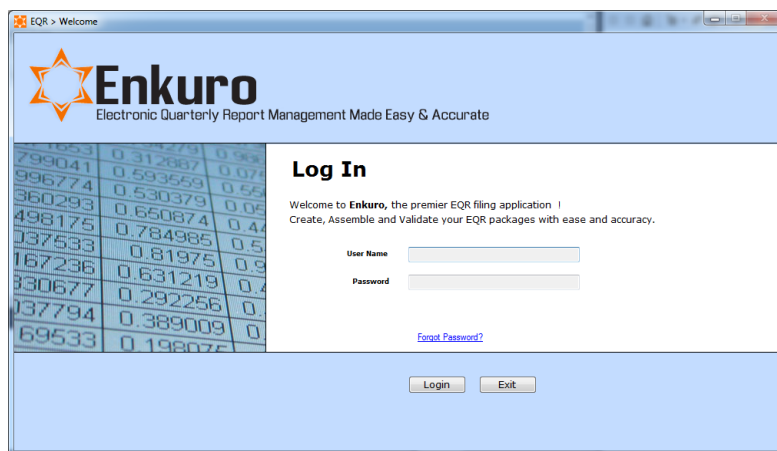

The Premier Electronic Quarterly Report (EQR) Management System

Product Overview

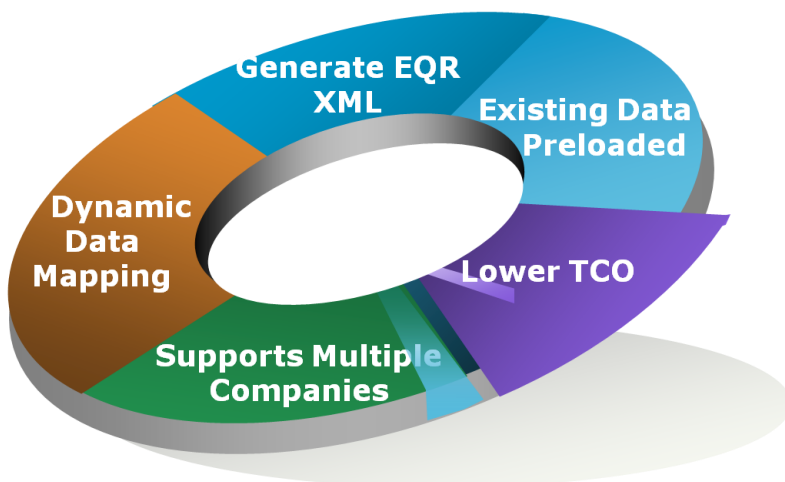

Enkuro Electronic Quarterly Report (EQR) Management System is a user-friendly, powerful, and feature-rich solution for managing ERQ filings.

Enkuro provides users a robust platform to create, manage and submit EQR's with ease and accuracy. Enkuro product user interfaces have been designed with the end user in mind.

Enkuro generates and validates the EQR filings in the required format and supports the way users work today by providing a full range of import, data entry, validation and correction options accessible within a single interface.
