

Tennis Hobo is not about the glamor of the big time, but rather it is the untold story of someone who makes all that possible — the teaching pro. It is about Stretch and his friend, Hammer; and it is about an inner city kid who becomes their protégé. It is also about disillusionment and life, and a longing for the old days. But there are plenty of laughs, too. John Gruberg delivers the real thing — club players, public-parkers, hungry young pros, and anxious tennis parents. Fascinating instruction bits and witty insights to the game are a bonus.

Tennis Hobo hits home with poignance as it glances back into that unparalleled era of McEnroe, Borg, Connors / Navratilova, Evert, King.
