

GEOD CORPORATION

AERIAL MAPPING · LAND SURVEYING · UTILITY MARKOUTS
A CERTIFIED SMALL BUSINESS ENTERPRISE

For our **Spring 2017** newsletter, you were asked to divide the circle with three straight lines into several regions with equal sums of the numbers in each region. The circle is divided into five regions with equal sums (12) of their numbers as shown in the illustration.

John Tan of Naik Consulting Group was drawn at random from the responses received and will receive a \$200 Best Buy Gift Card. Congratulations John!

**NOTE: We received some submissions which totaled 15. While not the answer we were looking for we did accept them since they did still meet the criteria of three lines and equal sums.

Thanks to everyone who participated!
