American Cyber Ranks Number 799 in Inc. 5000's Fastest Growing Companies

Clifton, VA, August 29, 2016– American Cyber is pleased to announce that the company has been awarded a ranking of number 799 on Inc. Media's 5000 list of fastest growing private companies for 2016. Honorees for the Inc. 5000 awards are selected and ranked based upon positive annual revenue growth over a three-year period. As a small company, American Cyber is extremely proud to have made this list, as it shows the company's progression and advancement as a reputable and trust-worthy establishment.

"For 35 years, Inc. has welcomed the fastest growing private companies in America into a very exclusive club. On average, the companies on the list have grown almost five-fold over the past three years. That's a result most businesses can only dream of," says Eric Schurenburg, president and Editor-in-chief of Inc. Media. As an honoree of this prestigious ranking, American Cyber now shares their name amongst a tall, respectable list of other successful companies such as Intuit, Zappos, Under Armour, Microsoft, GoPro, Timberland, Clif Bar, Patagonia, and Oracle.

About Inc. 5000

In 1982, Inc. introduced the Inc. 500 list of the fastest-growing privately held companies in the United States. Since then, this prestigious list of the nation's most successful private companies has become the hallmark of entrepreneurial success and the place where future household names first make their mark. Pandora, 7 Eleven, Toys 'R' Us, Zipcar, Zappos.com and numerous other well-known brands have been honored by the Inc. 5000. In 2007, the Inc. 500 list expanded to the Inc. 5000, giving readers a deeper, richer understanding of the entrepreneurial landscape and capturing a broader spectrum of success.

Today, the list is a distinguished editorial award, a celebration of innovation, a network of entrepreneurial leaders, and an effective public relations showcase. The Inc. 5000 ranks companies by overall revenue growth over a three-year period. All 5,000 honoree companies are individually profiled on Inc.com. The top 500 are featured in the September issue of Inc. magazine, the leading entrepreneurial advocate for 33

years running. Inc. also ranks the fastest-growing companies by industry, metro area, revenue, and number of employees, and we also highlight women- and minority- run companies.

About American Cyber

American Cyber, Inc., specializing in C4ISR and Cyber solutions and services for the Government, has decades of experience leading transformational initiatives supporting National Security missions. We identify and implement preeminent, integrated technology solutions for the Government based upon our specialized knowledge of C4ISR and cyber requirements and technologies, and our unique insight into the needs and processes of the U.S. Government and Department of Defense. Our ability to solve any challenge from network gateways to the end-users, including mobile devices, allows American Cyber to offer Solutions with Velocity. We have built partnerships in Government, industry, and academia to provide robust, innovative and cost-effective solutions and services for national security missions. We have extensive experience providing direct support to the Federal Government.
