Insurance Tips

1. Get into the habit of taking photos of specified items such as expensive jewellery, paintings, leather clothing etc.
2. Advise your insurer of the specific details of electronic items that have a serial number, the make and model i.e. laptops, ipads and cellphones
3. Keep invoices of all your household items that you purchase. Make a photocopy of these items as ink from receipts often fade.
4. Forward valuation certificates to your insurer annually with an instruction to update the value of jewellery etc.
5. Give Compsure a call for comparative quotes on your insurance and compare based on price, product, provider & excess structure.
