

# Wasteland [Lyrics, 84 bpm]

[Marathon Worship (Studio)]

## Intro:

### Verse 1:

Make way the path You made for me  
Open my eyes God help me see  
The old is gone the new has come  
My journey here has just begun  
Make way the path that You have made for me  
Set my eyes on things to come  
Use me for the work to be done  
I am just a vessel here  
I hear Your voice so loud and clear  
I know Your best for me is yet to come

### Chorus:

Do a work in me, things I've never seen  
Show me the ways, that You're leading me  
Through You hope is found, and I am ready  
now  
Send me out, send me out to the wasteland

## Instrumental:

### Verse 2:

I am tired of all this talking  
I will follow where You're calling me  
I will not walk in this fear  
For You my God You brought me here  
Make way the path that You have made for me

### Chorus:

Do a work in me, things I've never seen  
Show me the ways, that You're leading me  
Through You hope is found, and I am ready  
now  
Send me out, send me out to the wasteland

## Instrumental:

### Bridge:

I'm gonna go, go live like I mean it  
Love where it's needed  
Send me out
