## Intro:

### Verse 1:

From the tips of the clouds to the depths of the  
seas  
Your Love is reaching down for me  
From the sand on the shore to the blades of the  
grass  
Your Love is reaching out for me

Je- sus, Our Savior  
There's not a thing  
That compares to Your love  
Je- sus, how wonderful  
There's not a thing  
That could ever come between

### Verse:

Through seasons of change when I can't find  
my way  
Your love will always be the same  
Not a thing in my past or on the journey ahead  
Could ever keep Your love from me

### Instrumental:

end on

### Bridge:

No matter how far I go  
I cannot hide from You  
No matter how far I fall  
Your love will pick me up  
No matter how far I run  
Your love will call me home  
This is real love, this is real love  
You're more than enough

### Chorus:

Je- sus, Our Savior  
There's not a thing  
That compares to Your love  
Je- sus, how wonderful  
There's not a thing  
That could ever come between  
There's not a thing  
That could ever come between  
There's not a thing  
That could ever come between
