# Indian Trail

*A leader in the Northern Indiana Furniture industry. The door to Indian Trail Furniture was opened in 1994 by William and Phyllis Ann Troyer. Since then, we have only worked with the finest wood to design quality hardwood beds handcrafted to last for years to come. These are beds that will become family heirlooms for future generations.*

*We at Indian Trail Furniture build beds out of hardwood which is an open grained wood. Solid wood beds will expand and contract with humidity and temperature changes even after high quality finishes have been applied. Controlling humidity will minimize the minor cracking and movement. This is a natural part of the wood character. Humidity should be kept in the 35-40% range to minimize these effects.*

*If out of these ranges, solid wood will expand and contract causing cracks, gaps and panel movement that add to its character and beauty.*

*With proper care solid beds will provide a lifetime of enjoyment.*

*In every bed built by Indian Trail Furniture there is quality workmanship that assures many years of endurance. This workmanship can be found in the attention to details that make each bed unique and beautiful.*

*A high quality steel bracket...*

*In 2016 we conducted a survey on bed rail fasteners. The results showed us we need to go with brackets. The most common comment we received was, "we need it customer friendly. This way the customer can set up by themselves and no questions need to be asked." We looked for a good solid strong bracket. The bracket is made of steel, providing the strongest construction, and has a ledge on the bottom for the rail to rest on, so all the weight is on the bracket. The bracket is then fastened to the head & foot boards by 2 hardened steel lags. We use dovetail slat construction with 4 slats per bed. King size beds have 4 support legs, and queen size beds have 2 support legs. Full/twin beds do not require support legs. This adds a solid feature to each bed. There is nothing else like quality construction.*

## Notice of Product Changes

### New for 2018

055 Tawakon, 056 Hamilton, 069 DuMont, 085 Iron Wood, 092 VanDella, 073, Shaker Bunkbed

### Change Made

**All low footboards:** We lowered the panel part closer to the floor.

**All bunkbed gaurdrails:** Will have only 2 rails instead of 3 rails.

**064 American Panel, 065 American Missions, 072 Shaker, 074 4-Panel, 077 Flush Mission, 079 Heidi, 099 Bow Panel, 099TP Bow Panel:** We made changes on the footboards – see model number page.

**015 Platform:** Center bonus storage with door will no longer be available.

**The Following  
Beds are  
Discontinued and  
Will No Longer  
Be Available**
