ESTABLISHING HEALTH GOALS

Personal Message

Before we begin our journey together, I would like to discuss something very important that will have a major impact on your ability to recover and achieve maximum improvement. After many years in private practice, I have had the opportunity to work with thousands of patients and have seen many patients achieve significant improvement while others have become frustrated and failed in their attempt to get well. After careful review, I have discovered the reasons why some people succeed and why others fail. This questionnaire is about much more than eliminating your symptoms – it's about living a life of vibrant health.

I've discovered that any discussion of the correct way to achieve health and stay healthy is, in actuality; a discussion of how you have lived your life up to this point and how you will live it in the future.

Therefore, to help you make significant changes in your present health, I want to ask you a few very important questions. I want you to be honest with yourself and really dig deep inside yourself for the answers.

What do you hope to achieve in your visit with us? _____

If you had a magic wand and could erase three problems, what would they be?
1. _____
2. _____
3. _____

Have you made the decision to change? To do what it takes to get well? Yes_____ No_____

There is a big difference between deciding something and having "reasons" to actually do it.

When you have made a decision to make a change and you know your reasons, you create an internal power that can propel you to achieving health and wellness. So now I ask:

List up to 5 things that you have *been unable* to do as a result of your present symptoms. Please be specific.

_____

_____

_____

List up to 5 things that you plan to do once you are feeling better. Please be specific. (Use extra pages if necessary)

_____

Are there any other health goals you want to achieve?

Thank you for taking the time to complete this health history medical questionnaire. The information derived from all of these medical forms will provide invaluable data. Each section builds upon the other, allowing me and other physicians the opportunity to discover the **"missing key"** that will solve your health problem. Once all the sections of this form and the questionnaires have been filled out please return them to our office and we'll make an appointment for our initial consultation.

I thank you once again and look forward to helping you achieve a **"return to health and well being."**

Sincerely,

Tricia Fox
