Crossfire Music Productions

See What We Can Do For Your Event

About Crossfire...

Servicing the South Shore of Nova Scotia, Crossfire Music Productions specializes in many different capacities for special occasions.

Crossfire offers customized packages to suit your needs.

When planning your event, we will take the time to help you with any unanswered questions or concerns you may have.

Free consultation is provided at a mutually convenient location.

We provide a wide range of services that includes:

- DJ Services
- Indoor/Outdoor Ceremonies
- Corporate Events
- Banquets/Conferences
- Fashion Shows
- Audio/Video Presentations
- Sound Systems
- Décor Lighting Systems
- Wireless Microphones
- Projectors
- Slideshow Designs
- Chair Covers
- Pipe & Drape Backgrounds
- Tables & Chairs
- Podiums
- Linen Rentals
- Equipment Sales

DJ Services...

Crossfire can provide services for:

- Weddings
- School Dances
- Banquets
- Birthday Parties
- Halloween Parties
- Christmas Parties

and any other special occasion.

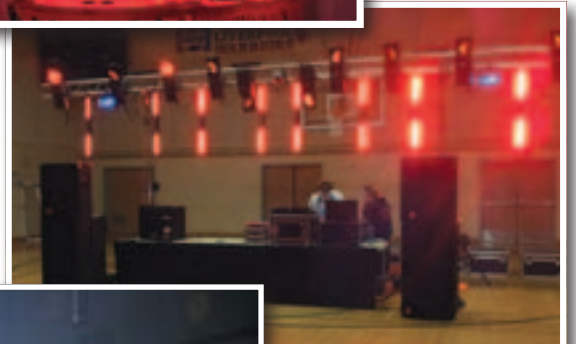

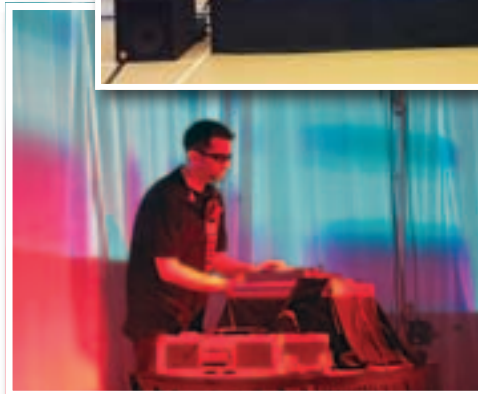

A DJ is able to cater more to what the crowd wants better than any mp3 player or laptop.

A proper sound system is a must for creating a more professional event.

We can provide music in between the break of a band to keep the party going.

When booking an event, make sure you tell us where your event is going to be and how many people are going to be there.

Details are very important. For example, the requirement for a group of 300 is very different than what's required for a group of 50. Crossfire has a very extensive library to accommodate all age groups.

Live Sound Equipment...

We try our very best to ensure your event is a special one.

The sound quality of a band or live show is crucial, from a small show to a large one, they're all important. We work hard to find the right person for the appropriate job so it goes as smooth as possible.

We keep adding to our inventory to serve you better and will help you build packages to fit your needs.

Décor

The first impression sets the stage, and nothing does that better than décor.

Crossfire has everything from backdrops to chair covers to beads, tables, chairs, etc.

The décor of the room is what changes the atmosphere and turns it into something special for Weddings, Banquets, Proms, Galas, Anniversaries, Retirement Parties, Christmas Parties, and Ceremonies.

Ceremonies, Conferences, Banquets and Galas

Just how important is sound and visuals?

We feel sound, lighting and video and the right size screen are very important.

What if your guest in the back rows can't hear or see what's going on? After a while they would rather be home than at your event.

Crossfire works with you to try to make sure you have the right equipment.

Lighting

Lighting can be one of the most important aspects of your event that is often overlooked.

The truth is, the more you add in the right places the better it looks. DJs need them for atmosphere. Bands have to have lighting. If they are on a stage and have no lights you won't be able to see them. They also won't be able to see to play.

Lighting helps décor stand out. You have to use the right lights for the right job, and Crossfire will help achieve that.

Video Projection and T.V.

Video Projection and T.V.'s are a great add on to any event that can be used for Conferences, Trade shows, Weddings, Concerts and Movie nights.

What better way to promote your business than with eye catching advertising or having your logo or name on the screen at an event?

For weddings you can have your photos or videos playing for your guests if you got married down south or want to share photos of how you met.

You can also have video of the band projected up on the screen so that your guests have a better view.

Weddings

From DJing to sound for the ceremony, to the décor or even the rentals, it is all important to us.

We stay current, buying new equipment for this market because it is always changing.

For a couple planning a wedding, it can be very stressful and everyone has their dream of what they want their special day to look like. We will help to accommodate your vision.

Important Tips

- When playing a video, make sure it will run on the equipment you have and that you have the right cables to make it work from a computer, DVD player, projector, etc.
- If you're going to have an outdoor ceremony make sure you have a back up plan in case of inclement weather so it doesn't dampen your special day.
- When having a ceremony of any type don't forget to have sound so your guests can hear.
- When having a concert see if the band is bringing the back line or if you are required to supply it. The back line is Drums, amps, etc.
- When dealing with a band make sure you find out how big the stage needs to be.
- When booking a venue make sure you receive a contract that clearly indicates the time you are permitted to begin setting up and required to tear down.
- When booking a sound company make sure they know how many people are in the band and what they're using for instruments. Communicate any changes to your sound company to ensure they are aware.
- Make sure your DJ has your song for any of your special dances.

Accepting VISA and MasterCard

Additional charges apply to purchase

Although we supply a vast amount of items in our décor audio & lighting suite, we do not have the ability to supply or setup certain items (i.e. centerpieces on tables); Please note: This is inclusive to customer-provided items being setup. In conjunction to this, we are also not able to provide seating charts of events. It is recommended to consult with the vendor of the event (i.e. Best Western Hotel) to see if this is available.

Notice: Due to contractual obligations, any communications (Phone, Contact Form, etc.) sent during Friday or the Weekend will be responded to the following Monday. This is not inclusive to clients with bookings during this time frame

Crossfire Music Productions

Att: Jeff, Cindy, and Staff

Dear Jeff and Cindy,

Just wanted to send you a note to say thank you so very much for decorating and dj'ing for Wayne and I on our wedding day. Words cannot express how pleased we were with everything. Perhaps the tears I shed when I first saw the reception room was a better note of thanks from us.

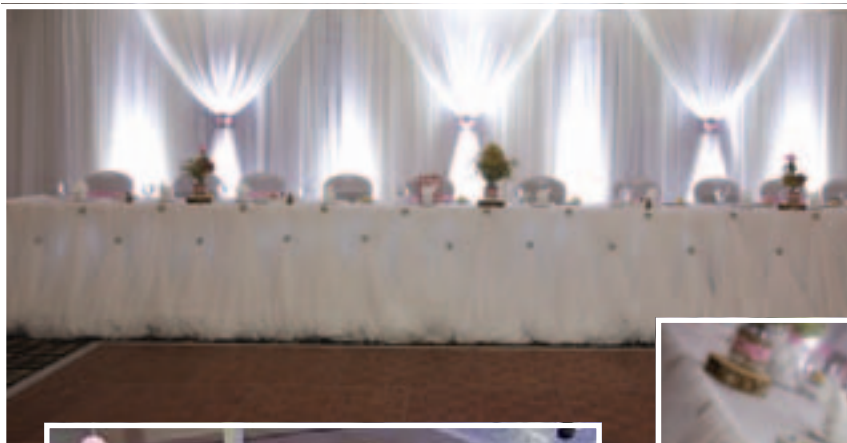

As a little girl, I had a vision of what I dreamed my wedding day to be, and May 16, 2015 you were able to bring that dream to life. As a nervous and a tad excited bride ;) I had more ideas than I knew what to do with. You were able to take all of my ideas and turn them into reality, an amazing job in itself. Lol!

The decor was absolutely stunning and everything that I hoped for and exceeded my expectations. Everyone was and still talk about how beautiful everything was. Walking into that reception just took our breath away and could best be described as Magical!!! It was as if we were walking into magical wedding wonderland designed exactly as Wayne and I wanted.

And when the music began everyone hit the dance floor and danced all night. The music was perfect. Thank you from the bottom of our hearts for working so hard to make sure all of our song requests were played. You went above and beyond for us and for that we thank you.

Should anyone ever ask if we would recommend your service our answer would be 100% Yes!!! You brought together everything we mentioned to help make our wedding day perfect and we could not be happier. Our family and friends still talk about how fantastic the decor and music was and we continue to share your name with everyone.

Thank you again from the Very Happy Couple
Jody and Wayne LeFave

Testimonial

"Crossfire Music Productions provided DJ and decoration services for our wedding day, and they were nothing but spectacular. Cindy and Jeff were so much fun to work with, and they made sure our day was as smooth and stress free as possible. Our meetings prior to the wedding with Cindy and Jeff were easy going. They really focused on getting to know us, our personalities, and our vision for the wedding day, which was reflected in the music choices and decorations at the reception. I never had any doubt with our choice in Crossfire Music Productions, after my first meeting with Cindy and Jeff, I knew I could trust them to follow through with our vision and make our day absolutely special.

Cindy and Josh were incredible DJs, from my 7 year old cousin to my 83 year old Grandfather, they had absolutely everyone on their feet dancing all night long. They focused on music we had requested, and some 'other on the spot' requests from guests. I got to see some relatives dance who I'd never seen dance before (for good reason, but they still had a good time J). I remember sitting back at the head table during the dance, and taking everything in; I saw family and friends dancing and singing along to a family favourite song, and Cindy and Josh dancing along too. That's what the day was all about; love, joining two incredible families together, and celebrating with all of the people we love. Our families still talk about what an incredible night they had, and it will be a day I never forget.

I would recommend Crossfire Music Productions to anybody looking for DJ or Decoration Services for their wedding, or any event for that matter. We thank Cindy and Jeff from the bottom of our hearts for making our wedding day so memorable, and for providing the best DJ and decoration services we could have imagined."

Thank you,
Katarina and Jamie Danbrook

September 21, 2015

Even though I had been a disc jockey in various capacities for many years, approximately five years ago I decided to start my own company. That involved starting from scratch with all brand new equipment. I knew of Jeff and Cindy Cross mainly by reputation for having extensive knowledge of their business. I contacted Jeff and told him I was looking to get set up with a total show, including lights, audio, and all the other necessities needed to hit the road with a professional show that would produce the results I was looking for.

Jeff guided me through the process, and recommended certain products that he felt would serve me well, knowing what my expectations were. From speakers and amplifiers, LED and laser lights, to switchers, mixers, players, mics, plus cords, stands, plugs and so much more that I would need, and some items I hadn't thought of, that were crucial to the success of my business.

Over the last five years, I have continued to update my equipment through Crossfire Music Productions, and in some cases when additional equipment is needed for individual events, I have also rented gear from Crossfire as well. I can safely say that Crossfire Music Productions has played an integral part in the success of my business.

Riverview Enhanced Living (Formally known as LaHave Manor Corporation), has been having an annual Gala Fundraiser for the past 14 years. We hired Crossfire Music Productions 3 years ago to help with the event. With their guidance and suggestions it has helped to make the planning smoother and has helped contribute to the success of the event.

Jeff and Cindy are very easy to work with. They have creative and innovated ideas around decorating and every year they come up with new ideas. With their ability to pay attention to detail during the night of the Gala it has helped to make the event more enjoyable for the staff and the guests. They have alleviated the stress associated with planning a big event such as this.

Jeff and Cindy are dependable, reliable and professional. They are very experienced and knowledgeable in their field. I highly recommend giving Crossfire Music Productions a call for your next event!
