

Planning Tips For The Perfect Party

By Spin City Music Productions

- 1. For a wedding, keep in mind that your guests want to be close to the Bride & Groom. If you're on the dance floor, the guests will be too!**
- 2. Try not to micromanage the timeline. We do need the order of events and an approximate time but not necessarily the exact time.**
- 3. If there are older guests, try not to sit them close or right in front of the speaker(s).**
- 4. Don't put the DJ in an obscure location or corner; the DJ needs to be easily visible and near the dance floor so they can see it to get a feel for the crowd.**
- 5. If your package includes dance floor lighting, keep in mind that the darker the room, the better. Use dimmers for chandeliers, cafe lighting, etc.**
- 6. If you have a bar or photo booth at the event, please have them both located in the main hall close to the DJ. You want to keep people near the dance floor at all times.**
- 7. When picking your songs for your event, take into account not only your taste, but your guests' taste as well.**
- 8. You always want to leave the guests wanting more. It's not your responsibility to entertain guests until 2am. Most events end by midnight.**
- 9. When picking your music, you don't have to overdo it. Pick 10-15 or so songs you really like and a few you don't, and let us fill in from there.**
- 10. If you have to cut corners on your budget, don't skimp on your entertainment—it really can make or break your event!**
