Instructions For Over-Dimensional Load Drivers

1. All oversize loads will be measured and recorded below before leaving Shipper regardless if an escort is required or not.
2. After the load has been loaded the Load Driver and Escort Driver (s) together will measure the load for OVERALL LENGTH, WIDTH and HEIGHT and recorded below before leaving the shipper. This includes ALL loads that require front, rear and pole car escorts.
3. The warning pole should be set a minimum of six (6) inches higher that the load itself.
4. The Load Driver and Pole Car Driver will measure the height of the Warning Pole daily.
5. The Load Driver and Escort Driver (s) will review all permits and routes before leaving shipper. Any questions about routes or permits will be address to Rybicki Trucking Dispatch before leaving shipper. AT NO TIME WILL A ROUTE OR PERMIT BE ALTERED OR CHANGED WITHOUT CONTACTING RYBICKI TRUCKING DISPATCH.
6. The Load Driver and Escort Driver (s) will have two-way radio communication at all times. NO LOAD WILL MOVE WITHOUT THIS REQUIREMENT BEING MET.
7. No loads are to be convoyed using a single escort, either for width or height.
8. The Pole Car will maintain a reasonable distance ahead of the load. So that sufficient time is allowed to **notify the Load Driver an obstruction was hit by the Pole Car to allow the load to stop.**
9. The Load Driver is in charge of movement along the road. The Pole Car must accompany the Load on and off the Highway. This includes all rest areas, weigh stations, and truck stops.
10. BEFORE ANY OVER-SIZE LOAD LEAVES THE SHIPPER THE LOAD DRIVER MUST CALL DISPATCH AND GIVE THEM THE OVER-ALL DIMENSIONS OF THE LOAD. DISPATCHER NAME AND TIME CALLED IN MUST BE RECORDED IN THE SPACE PROVIDED.
11. Go over road language you will use (examples: stop, clear, easy, etc.)
