

Thank you for reviewing my book!

Reader Reviews are **KEY** to get a book higher on the search list, which will help the people who need it find it more easily and quickly.

I realize you may not be a man and you may not be divorced. If this describes you I encourage you to get a print copy of my book to have on hand when a man in your world—a brother, a friend, a coworker—goes through divorce. And you can still write a review!

Here is the procedure for writing a review...

1. Go to the Amazon page where my book is sold: <https://www.amazon.com/dp/B07HZ4B9TG>.
2. Buy the book (thank you!). The ebook is \$2.99, the Print book is \$14.99. Unfortunately Amazon will not let me reduce the price of the print book (due to their printing costs I assume).
3. Once your book is downloaded, look it over, then go back to the Amazon webpage where my book is.
4. Under the title, click "Customer Reviews."
5. On the next page click the "Write a Customer Review".
6. Click the number of stars you give my book... then
7. Write your review...
8. Then post it! A message will come up saying that your review is being reviewed before it is posted.

**Thank you so much for taking time and
investing in the success of my book!
You may literally be part
of saving the life of a man who is struggling
through the trauma of divorce.**
