

AmeriChem *Silver Maxxi-Cell*

AmeriChem *Silver Maxxi-Cell*

After many years of continual improvements **AmeriChem** has developed the **AmeriChem Silver Maxxi-Cell**. The **Maxxi-Cell** is the heart of a highly efficient, easy to use, easy to maintain silver refining system. When operated under optimal conditions, each **AmeriChem Maxxi-Cell** is capable of producing roughly 3,000 troy ounces/week of high purity silver crystals. Thanks to **AmeriChem's** modular design, more cells can be added when an increase in production is needed.

Inner Dimensions of Main Chamber – 60" W x 26" L x 26" H

Collector Trough – 60" W x 7" L x 9" H

10" Collar for Fume Duct

Included

Ultralow ripple (0.01%) DC power supply rated at 0-150 amps 0-5.5 Volt DC output (Input AC Volts 110/1Ph/60Hz) Collector Basket, Scraper Tool.
