Anti-Wrinkle Injections

Anti-wrinkle Injections, using Botulinum Toxin, temporarily paralyses the end of motor nerves that make muscles move. It is an excellent treatment for softening wrinkles. The aim of the injections is to weaken muscles rather than paralyse them, leaving some facial expression but still getting rid of the wrinkles or reducing them significantly.

The most commonly treated areas include:

Glabellar (between the eyebrows)
Forehead
Crows lines
Eyebrow lift

PRICES

1 Area (1/3 of a vial)	£100
2 Areas (2/3 of a vial)	£130
3 Areas (1 full vial)	£135

Botox for excessive sweating (hyperhidrosis) also available from £270.

Dermal Filler Treatments

A natural part of the ageing process is the loss of dermal volume in areas such as the lips, cheeks and the lower half of the face, which can result in thinner lips, baggy eyes and saggy skin. Dermal fillers can be used to replace this lost volume resulting in a natural, more youthful fresher appearance.

PRICES

Lip Filler (per 1ml)	£160
Cheek Filler/ Jawline (per 1ml)	£160
Other areas (per 1ml)	£160

Numbing Cream and Injected local anaesthetic are available for filler treatments.

HIFU- Skin Tightening and Fat Destruction

HIFU stands for 'High Intensity Focused Ultrasound'. This treatment can target various depths of the body's tissue for skin tightening, skin lifting and body contouring. HIFU energy can also be used to target and destroy fat cells for body contouring.

PRICES

Lower face (jowls, under chin)	£220
Neck (neck, under chin)	£220
Lower face + Neck	£360
Buttocks	£320
Arms	£220
Abdomen	£260

Lipolysis (fat destroying) injections

PRICES

Submental fat (double chin)	£280
Arms (upper arms)	£320
