

NORTHVALE
construction

Capability
Statement

Uxbridge High School | Education Development

Northvale Construction provides **specialist construction skills** for all forms of refurbishment, structural alterations, new build and interiors.

ABOUT US

Founded in 2008, Northvale Construction has strategically grown and consistently delivered high quality projects across the commercial, residential, education and retail sectors.

We work closely with our clients and design team consultants to achieve unique, innovative and cost effective solutions.

We pride ourselves on delivering outstanding results on time, on budget and with the highest degree of professionalism. Our goal is to fulfil our client's needs and exceed their expectations.

First Street Chelsea | Residential Development

With pride in their work, **our people** have the drive to make your project a success.

Our People

Our success depends on the skill, knowledge, integrity and commitment of our staff. Our employees represent the company's most important asset and their development is a top priority.

We attract, develop and promote the best people in order to provide a high quality of service to our clients and customers. We provide a working environment that makes people proud and happy at work, enabling them to give their best. We make sure that they have the training required to help us progress and remain industry leaders in our market place. We are committed to helping them achieve their full potential.

Setting Standards

We are committed to setting standards for excellence and striving to surpass these standards, in order to provide best value for our clients.

Our Goals

To ensure we meet our goals of quality service and client satisfaction, we endeavour to gain a total understanding of our client's requirements and we undertake to keep these requirements as our prime consideration.

Quality, Safety and Environment

High standards of quality, safety and environmental management are key elements in a successful business. Our aim is to provide a quality service to our clients, this cannot be achieved without effective management of the risks to the health and safety of employees and others who might be affected by our works.

We have adopted the ethos of safety management based on risk assessment and control. We spread this message throughout all of our activities.

Foxtons Retail Development

WHY US?

We build on strong relationships

We strive to give our clients the benefit of our construction expertise from the earliest stages of design, providing valuable insight into current market trends, pricing and build-ability.

By working closely with clients, we are able to develop comprehensive construction solutions for each project and include important construction advice such as opportunities for cost savings, while still maintaining the integrity of the design intent.

We'll facilitate brilliant project collaboration

The best minds working together towards a single purpose. We work with the most amazing clients. We bring out the best in each other.

We'll deliver on time and on budget

With our extensive expertise and experience, we deliver innovative and value engineered solutions for our clients, leading to the successful construction of even the most logistically challenging and complex projects.

We keep our promises and act with integrity. We'll create an environment that promotes well-being and protects the reputation of your brand.

Right first time

We are committed to quality; this is a vital concept that runs throughout our company. Adhering to our programme whilst maintaining high quality is achieved through our individual project tailored programme system.

For two consecutive years, Northvale Construction has been recognised by the ‘Sunday Times Virgin Fast Track 100’ at number 95 in 2015 and number 28 in 2016.

Safety on site

We have access to competent Health & Safety advice on an on-going basis. We demonstrate our knowledge and understanding by having competent, qualified and experienced professionals. We provide technical knowledge relevant to the project and ensure each project has the correct people with the skills to manage and co-ordinate the pre-construction phase through to completion.

Our best team for your project

Hand-picked specifically for your projects, our team members are highly motivated, skilled and inspired to deliver an outstanding project.

Supply Chain and Procurement

We have a tried and trusted supply chain for the core trade packages on our projects, built up from relationships over many years. Our supply chain is of vital importance to our safe delivery of the project. We treat our supply chain with respect, recognising the key importance of specialist sub-contractors to achieve project success.

Direct Labour

We have access to direct labour ensuring continuity of operational personnel from project to project. This brings benefit to our projects for time, cost and quality. The value we place on a direct workforce allows us to be flexible and adaptable to react to client's needs and helps us to deliver to industry best practice.

OPERATIONAL CAPABILITIES

Structural refurbishment specialist

We have developed a reputation for delivering complex structural refurbishment projects.

We excel in our method related construction techniques offering build-ability advice from the outset.

With our extensive expertise and experience, we deliver innovative and value engineered solutions for our clients, leading to the successful construction of even the most logistically challenging and complex projects.

Our capabilities and expertise include:

- ▶ Underpinning
- ▶ Basements
- ▶ Structural Alterations
- ▶ Temporary Works
- ▶ Façade Retention
- ▶ Ground-works and Concrete works
- ▶ Adding additional floors on top of existing buildings
- ▶ Working in 'live and occupied' buildings
- ▶ Heritage buildings

We have the willingness, flexibility and broad project experience to work alongside clients and property owners in producing outcomes that are beneficial to all involved. Our highly experienced team is committed to delivering high quality outcomes on every project, often within tight time frames.

We take pride in our completed projects and aim to deliver buildings of the highest standard.

- ▶ Turnover for year end March 2017 approaching £15m.

Great things in business are never done by one person. They're done by a team of people.

- Steve Jobs

THE MANAGEMENT TEAM

Stephen Morrow - Managing Director

With over 15 years of experience in the construction industry, Stephen has developed a remarkable array of technical skills and experience.

Stephen set up Northvale Construction in 2008 and manages the pre-construction side of the business, from pre-qualification through to successful negotiation of contracts. He is involved in the operational activities and decision making process of all our projects, assuring that the best outcome has been properly assessed prior to our proposition being submitted on any project we are involved in.

David Brett - Design & Technical Director

With an engineering background and over 20 years' experience, David has held prominent positions across various construction sectors and disciplines including civil engineering, refurbishment, fit out, new build, high rise reinforced concrete frames and basement construction.

With an excellent understanding of construction technology, David uses his experience to plan and co-ordinate the project team to bring the key elements of the project together. He pro-actively works to achieve a smooth co-ordination between the key interfaces to ensure we achieve a seamless construction build on time and to budget.

David has a passion for delivering high quality projects and is continually focused on achieving results that meets and exceed his clients' expectations.

Sea Containers House / Commercial Development

Kennedy Beaton - Construction Director
Subcontract Division

Kennedy has over 20 years of experience in the construction and refurbishment of existing buildings. In his role as a director he manages the operational delivery of our sub-contract division. He has been involved in all aspects of projects from conception to completion. His experience generated from his exposure to key projects is invaluable.

Kennedy is committed to understanding the client's requirements and applying the correct management principles and processes that provide a proactive and personal approach to delivering projects.

Chetan Varsani- Managing Quantity
Surveyor

Chetan is a highly experienced quantity surveyor coming from a strong main contracting and high end residential background. He manages our quantity surveying team and provides professional, procurement and contractual advice to deliver projects on time.

He possesses a non-confrontational approach to finding solutions to ensure that all project stakeholders work together to achieve the end goal.

Kevin Geraghty - Senior Contracts Manager

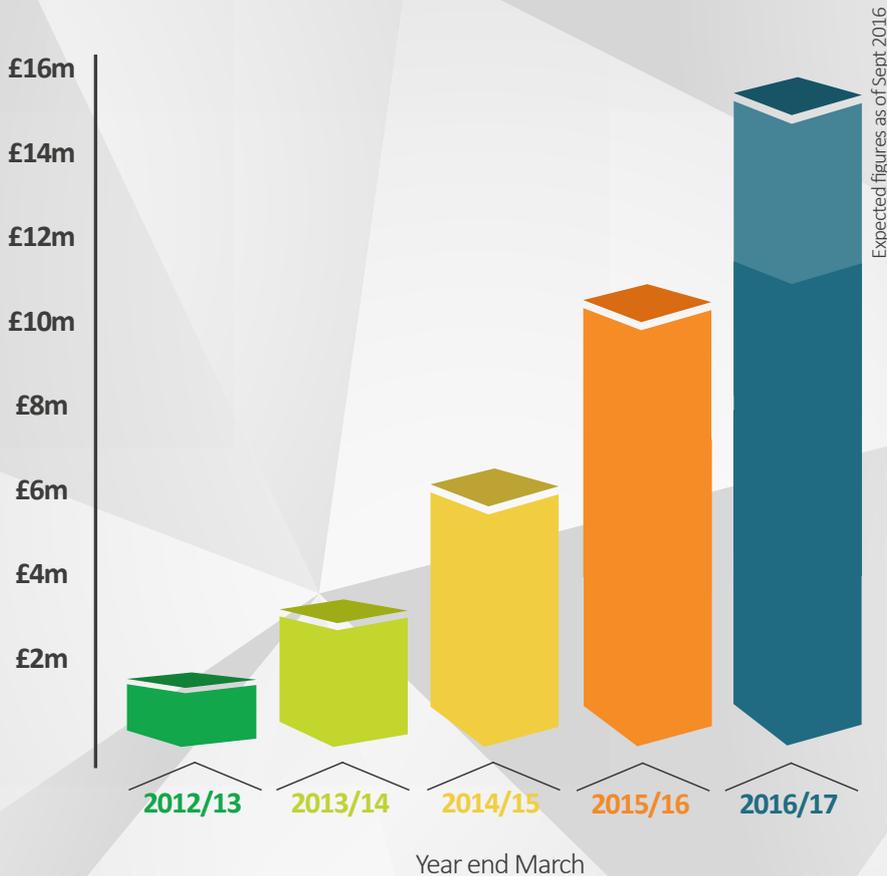

Kevin has over 20 years' experience within the construction industry. He has successfully Project Managed several high end residential developments for private developers.

Kevin is a highly motivated and enthusiastic manager and uses his skills to ensure that projects run cohesively and to programme whilst maintaining a high level of quality. He is an excellent communicator and uses his wide variety of experience to foresee and overcome problems whilst developing and maintaining a good relationship with clients.

Uxbridge High School | Education Development

COMPANY TURNOVER

Northvale now operates 3 divisions within the company:

- » Sub-Contract Division
- » Main Contract - project values up to £5m
- » Main Contract - project values over £5m+

Year end March 2018 turnover forecast at £25m

Successful projects are about achieving the best cost and programme outcomes, using the most innovative solutions - that's where Northvale Construction's skills come to the fore.

WHAT OUR CLIENTS SAY

At Northvale Construction we take great pride in what our clients say about our work. We strive to leave each job site with a fully satisfied client. Here is what our clients are saying about some of the construction projects we've completed.

'You all have been very professional throughout the whole project and it has been a joy.'

Cosmo Laing, Galliford Try, Quantity Surveyor for Crawford Primary School

'Northvale are an all round building company, very well managed and with a very good health and safety record, workmanship is of the highest quality.'

Graham Baird, Structure Tone Ltd, Senior Project Manager for Sea Containers House

'Realistically the project wouldn't have gone the way it did if you hadn't worked with us the way you did.'

Scott Bannon, Collins Construction, Project Manager for Elsinore

'I find Northvale to be a very proactive and user friendly contractor who I would not hesitate to use again.'

Joe Parker, Potter Raper Partnership, Partner
