

# WEBER METALS, INC.

ALUMINUM AND TITANIUM FORGINGS

Bob Cooper  
ProOne Inc.  
940 South Coast Drive, Suite 125  
Costa Mesa, CA 92626

Dear Bob,

After seeing your demo at the WESTEC show in Los Angeles we tried the ProOne ACA Cutting Oil product to see how it worked on our three story Friggi Saw. I immediately noticed that the AMP gauge dropped 12% after your product was added and the saw ran smoother.

We were so impressed that we now use ProOne products in every saw operation in our 27 acre plant. ProOne has proven itself to keep the carbide sharper cutting titanium and other hardened metals and we have also see much longer blade life which is a great savings for Weber.

Thanks and keep up the good work.

Sincerely,

Paul Wachsmann  
Manager, Materials
