➤ July 3 – July 7 No School

Registration for the Fall **After School Enrichment** Program is **OPEN**; register now [online!](#)

Our Learning

Mandarin: [1st Grade] We reviewed Chinese numbers 1-10, Chinese greetings, and emotions.

[2nd & 3rd Grade] We learned many new words and were encouraged to make creative sentences. We engaged in more dialogue to build our fluency.

Math: [1st Grade] We learned the knowledge of money. Specifically, the name and value of different types of money, such as quarters, dollars, cents, dimes. We played a game to reinforce our learning.

[2nd & 3rd Grade] We began our economic activity team building game to learn about corporations and to build on our understanding of the value of money.

Science: [All Students] We learned about **chromatography** and how the separation of molecules can look really pretty when we use colors. We also learned that for every action, there is an equal and opposite reaction by creating **balloon racers**.

Cultural Experiences/Art: We practiced the Art of Chinese Calligraphy.
