## Good Reasons to Choose Good Directions

- Our variety of fresh, unique, and classic designs from our growing roster of artisans.
- Heavy-gauge, high quality products that last for generations.
- Onsite quality control of manufacturing by our owner, a former tool and die maker.
- Knowledgeable, responsive, warm people on the phone.
- Advice on selecting the right products that will sell in your venue.
- Proven merchandising techniques that showcase the products in their best light.
- Installation instructions, videos, and personal assistance for retailers.
- Our promise that if anything is not right, we will make it right.

# New Products

## OVERSIZED EAGLE FIRE BOWL

The eagle, stars and stripes design in our oversized Fire Bowl stands out dramatically when backlit by flames. Handcrafted of the finest materials with exacting workmanship to withstand the elements.

## WHITE TAIL BUCK WEATHERVANE

Majestic and alert, this sculptural design captures the moment you spot a beautiful buck in the wild.

Weathervanes are forged by artisans in copper and brass.

## MULTI-PURPOSE TRAY

These multi-purpose trays are as versatile as they are attractive! Your customers will use them for shoes in the entryway to keep floors clean; as an attractive home for potted plants or as a roomy serving tray.

## MARLIN WEATHERVANE

Captured in life-like swimming motion, this marlin is the catch any sport fisherman would be proud to claim. Spins with a whimsical, life-like motion.

## The Perfect Finishing Touch

Add a unique, personal touch to your home with an eye-catching copper weathervane. Good Directions weathervanes are heirloom quality and constructed to be a joy for generations. Good Directions weathervanes are beautiful, functional and express the pride you have in your home. They are easy to install with both video and print instructions.

### OUR WEATHERVANES COME IN 3 SIZES

**ESTATE** - ideal for your larger home, garage, cupola, or barn.  
Dimensions: 41" L x 32" H x 34" W

**STANDARD SIZE** - ideal for your home, garage, cupola, barn or gazebo.  
Dimensions: 23" L x 20" H x 23" W

**COTTAGE SIZE** - ideal for smaller structures, sheds and gazebos.  
Dimensions: 21" L x 19" H x 16" W

### Materials and Finish

Good Directions Weathervanes are forged in copper and brass. The assembly rods are made of weather-resistant, black powder-coated steel.

#### Polished Copper

Copper will age naturally in the weather; first to a dark penny shade, then to the familiar matte green patina in 10 – 20 years. To preserve the shine of the original polished copper, apply Incalac Lacquer Spray (see page 15).

#### Blue Verde Copper

A Good Directions exclusive! This custom finish is a patina achieved through an accelerated oxidation process and then hand-waxed to protect the finish.

## Assembly and Mounting

The diagram illustrates the component parts of a weathervane. Full assembly instructions are included with each weathervane, and step-by-step installation videos are available on our website.

Roof mounts for Standard and Estate Weathervanes are sold separately and need to be selected based on the desired placement and roof structure. Although weathervanes are traditionally mounted to rooftops, we offer other ways to display a weathervane indoors and outdoors, including:

- Cupolas
- Garden poles
- Eave mounts
- Indoor floor or mantel display bases

### Cottage and Garden Weathervanes include:

Copper figure, solid brass directionals, copper globes and a single 15" rod.

A roof mount is included with Cottage Weathervanes.

A garden pole is included with the Garden Weathervane.

Copper Figure

Copper Globes

Solid Brass Directionals

Top threaded rod and bottom rod with brass ring

# FINIALS and CAPS

Finials add a graceful finishing touch to any rooftop, turret or cupola and keep things looking up as they bring the eye skyward and make a dramatic statement.

The addition of a Finial Cap visually connects the finial to your rooftop. Good Directions' pure copper finials and caps are unsurpassed in style, quality, and durability. Our finials come in a variety of designs to suit any architectural style.

## Materials and Finishes

Our finials are made from copper with a brass stem. The steel mounting rod features a weather-resistant, black powder-coated finish.

### Polished Copper

Copper will age naturally in the weather; first to a dark penny shade, then to the familiar matte green patina in 10-20 years. Proximity to water like lakes or oceans will accelerate this aging process. To preserve the shine of the original polished copper and brass, apply Incralac lacquer spray (see page 15). If the green patina is desired, Good Directions can provide an all-natural recipe to achieve this result more quickly. Just ask.

*NOTE: The aging or oxidation process of metals like copper and brass is natural and protects the metal from corrosion. This process does not compromise the integrity of the copper and brass.*

### Assembly and Mounting

Roof mounts for finials are sold separately and need to be selected based on the desired placement and roof structure. Although finials are traditionally mounted to rooftops or cupolas, we offer other ways to display finials, including:

- Eave mounts
- Garden poles
- Indoor floor display

See page 15 for all our mounting options. Need advice? Call us at 732-356-7333. One of our knowledgeable Specialists would be happy to assist you in selecting the correct mounting hardware.

To mount a finial or weathervane to a cupola 30" square or larger, an extension rod will be needed.
