LANDSCAPE FULLVIEW ELECTRIC FIREPLACE

LFV40/15-SH
LFV60/15-SH

The Landscape FullView built-in electric fireplace is the first of its kind creating a perfect substitute for a linear gas fireplace. This unique frameless design allows for edge to edge flame presentation as well as unlimited surround capabilities. Available in 5 different lengths for any application as well as 3 customizable flame bed options for different fit and finishes. An optional 2 stage heater is also included for supplemental heat to up to 450 square feet.

LANDSCAPE FULLVIEW ELECTRIC FIREPLACE

LFB80/15-SH
LFB100/15-SH

The Landscape FullView electric fireplace is changing the way the industry views built-in electrics. With 5 different convenient sizes there is sure to be a size that fits your residential and commercial needs. The Landscape FullView direct wires in to a standard 110 V 15 Amp electrical circuit, requires no additional venting, costs only pennies a day to operate and come in at 1/3 the cost of a comparable linear gas fireplace.

LANDSCAPE FULLVIEW ELECTRIC FIREPLACE

LFV120/15-SH

The LFV120/15-SH 120" Landscape FullView is the largest built-in electric of its kind. Modern Flames already produces the largest linear electric and now we have the largest linear built-in. This unit operates on the same electrical power supply as the others and still requires no additional vent. This unit easily installs into any framed wall and allows for any type of wall covering. Continue to explore the possibilities with Modern Flames Landscape FullView Built-in Series.
