

**Certified Level One Dental Assistant
Expanded Function Course**

Monitoring Nitrous Oxide Inhalation Analgesia Only

March 23, 2018 or October 5, 2018

Are you looking for ways to increase the productivity and efficiency of your office?
Are team members wanting to play a greater role in patient care & invigorate their career?
Our Dental Assisting Level One Expanded Function Courses can help make it happen!

In July 2015, the Iowa Dental Board made significant changes to expanded functions. They changed the eligibility requirements, added new skills and made an expanded functions pathway for hygienists. The IDB then took it a step farther and created a two tier expanded function system for both Dental Assistants and Dental Hygienists - Level One & Level Two. *With these new guidelines, now is the perfect time to explore how the Dental Assisting and Dental Hygiene expanded functions programs can benefit your office!*

Level One Expanded Function Courses New Eligibility Requirements!

Dental Assistant Requirements:

- Graduate of ADA Accredited Dental Assistant Program
- Currently certified by DANB (is a CDA)
- One year of clinical practice as a RDA
- One year clinical practice in a state not having RDA

Dental Hygiene Requirements:

- Licensed dental hygienist in the State of Iowa

Level One Expanded Function Skills:

11 for Dental Assistants, 5 for Dental Hygienists (* below)
(L) indicates course has a hands on lab component

- Monitoring Nitrous Oxide Inhalation Analgesia (L)
- **NEW!** Removal of Adhesives (hand instrumentation only) (L)
- **NEW!** Prelim. Charting of Existing Restorations/Teeth (L)
- *Taking Final Impressions (L)
- *Fabrication & Removal of Provisional Restorations (L)
- *Placement & Removal of Gingival Retraction (L)
- *Taking Occlusal Registrations (L)
- *Applying Cavity Liners, Bases, Desensitizing Agents & Bonding Systems
- Testing Pulp Vitality (L)
- Placement & Removal of Dry Socket Medication (L)
- Placement of Periodontal Dressings (L)

What is Level Two Expanded Functions for Dental Assistants and Dental Hygienists?

To be eligible for Level Two Expanded Functions, the participants must have successfully completed a Level One course from an Iowa Dental Board approved provider. Level Two will only be given at the University of Iowa College of Dentistry and requires passing an entrance examination.

Five expanded functions are included in Level Two:

- Placement & shaping of amalgam following preparation of a tooth by a dentist
- Placement & shaping of composite following preparation of a tooth by a dentist
- Forming and placement of stainless steel crown
- Taking records for the fabrication of dentures and partial dentures
- Tissue conditioning (soft reline only)

Certified Level One Dental Assisting Expanded Functions Monitoring Nitrous Oxide Course: March 23, 2018 or October 5, 2018

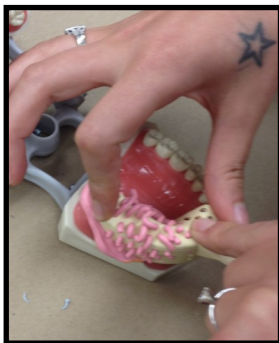

8 CEU's (6 Didactic/2 Clinical) \$200

Registration Deadline: one week prior to course start date (email us if past the deadline to determine availability)

Why partner with Impact Dental Training?

We do things a little differently and it's noticed. Dental professionals from across the state have taken our courses, including faculty from three dental assisting community colleges.

- **Flexibility.** Team members can take only the expanded functions courses they want and/or need or enroll in the complete Level One Expanded Functions program.
- **Hand on labs using real dental materials.** Many of our courses have a hands on lab component so your team members come back better prepared to perform the skills.
- **Small class sizes.** Our priority is our student success so we purposely keep our class sizes small so they get personalized attention throughout the process.
- **Remediation & support** is given until the successful completion of IDB required post tests is achieved.
- **Level Two Expanded Functions eligibility.** Our certified Level One dental assistants and hygienists are eligible for admission into the University of Iowa College of Dentistry program.
- **Experienced dental education as instructors.** Our instructors have years of experience in dental education at the University of Iowa, College of Dentistry and/or the Des Moines Area Community College Dental Assisting and Hygiene programs.
- **Dental Assisting Educator Council Expanded Function Curriculum.** Our Iowa Dental Board approved curriculum closely follows the council's recommendations. We award CEU's for both the didactic and clinical aspects of the course.
- **Private practice influence.** We are still active in private practice so we understand the needs of an office. We know what's important. We keep it real.

What our participants are saying about us

- *"The course covered everything well and since I'm a "hands on" learner, I appreciated the labs. It made me more confident returning to our office." A.F., CDA, Ankeny*
- *"My team came back with a good command of the skills and I found it easy to finish up their training in the office." Dr. J.L., Des Moines*
- *"Impact Dental Training made it easy for me to get my Level One certification after having been an EFDA for years under the old system." J.I., RDA, Waukee*
- *"Knowledgeable instructors. Up to date content. Very helpful. Great program." Dr. C.E.*

Ready to enroll or have questions? We're here to help.

- Seats are limited in courses with a hands on lab component.

LASER DENTISTRY OF IOWA

Course Information

Monitoring Nitrous Oxide Inhalation Analgesia Only

COURSE OVERVIEW:

Taught by a team of experienced dental educators, this new and updated expanded function curriculum is approved by the Iowa Dental Board and meets all the requirements for Level One Dental Assistant Expanded Functions training in the State of Iowa.

March 23, 2018 or October 5, 2018

8:30 am to 3:30 pm

Lunch provided

Monitoring Nitrous Oxide Inhalation Analgesia only

Our Level One Monitoring Nitrous Oxide course for Dental Assistants totals 8 CEU's. Ten other expanded function skills are required in addition to Monitoring Nitrous Oxide to be certified as Level One. This course consists of all five components required by the Iowa Dental Board. They are: 1) Meet eligibility requirements 2) Didactic component 3) Laboratory component (with lecture and/or in office with supervising dentist) 4) Clinical component (in office with supervising dentist) 5) Post course competency assessment at Impact Dental Training facility. Signature of supervising dentist and participating dental assistant required on registration.

REGISTRATION DEADLINE: one week prior to course start date (email if past the date to determine availability)

Pre-registration is required for each participant to determine eligibility. Registrations accepted first come, first served. Submit the registration form and a check for required course fees. Online registration is available for this course on our website, www.impactdentaltraining.com. Please check your eligibility before registering. If you have questions, feel free to ask. You will receive an email confirmation of your reservation. You should not assume you have been registered for the course until the email confirmation has been received. If you do not receive email confirmation within 10 days, please let us know.

COURSE ELIGIBILITY/INTENDED AUDIENCE:

RDA with one year clinical experience, current CDA and/or new graduate of ADA accredited Dental Assisting Program.

The eligibility section of the registration form must be completed with proper signatures in order to participate in the course. If you have questions, please contact us prior to registration

TOTAL COURSE CEU's: 8 CEU's (6 Didactic/2 Clinical)

COST: \$200

Course fees include tuition, course materials, hands on labs, coordination of all required components with proper documentation, post test administration and remediation until successful completion of post test is achieved.

At the completion of all didactic components, 6 CEU's will be awarded. Another 2 CEU's will be awarded for the completion of the lab & clinical components for each expanded function in office with your supervising dentist (submission of proper documentation required) and successful completion (75% correct) of the post course assessment. Textbooks are not included.

Cash or check payable to Impact Dental Training is required with registration. (Do not send cash through the mail) Online registration with credit cards or PayPal available for this course. Contact us if you have problems.

COURSE SCHEDULE:

You must be present for the pre-test and complete lecture to receive course credit and be eligible to complete next components. Courses will be conducted 10 minute breaks every hour. Expanded functions cannot be taken individually. Please arrive 15 minutes prior to the course start time to complete registration and gather course materials.

COURSE OBJECTIVES:

Specific course objectives for each session will be presented at the start of each individual course. If you would like a complete copy of all course objectives ahead of time, make the request via email and we will send you an attachment.

Certified Level One Dental Assistant Expanded Function Course (One Expanded Functions/One Day Schedule)

Course Title

Monitoring Nitrous Oxide Inhalation Analgesia

RECOMMENDED READING/TEXTS:

It is recommended that each office have at least one copy of our primary text - Handbook of Nitrous Oxide and Oxygen Sedation. Morris Clark and Ann Brunick, Fourth Edition. United State: Elsevier Mosby, 2015 for the course.

Many participants find it helpful to bring the book with them to the course.

COURSE LOCATION: Impact Dental Training Center
5965 Merle Hay Road, Suite D, P.O. Box 434
Johnston, IA 50131

CONTACT INFORMATION:

Phone:	515.321.5942	Text:	515-321-5942
Email:	info@impactdentaltraining	Website:	www.impactdentaltraining.com

COURSE INSTRUCTOR:

Lisa Swett, RDH, BS, MS, Sarah Bauer, RDH or Alan Swett, DDS

THINGS TO CONSIDER:

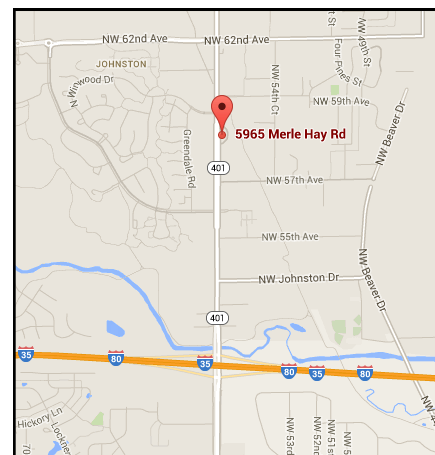

- Sweater or jacket for lecture room as it is difficult to heat/cool the room to everyone's liking.
- Many participants find bringing your Textbook helpful (one per office is recommended)
- Lunch provided. If you have special dietary needs, please bring your own lunch.
- Light snacks and water will be available throughout the day. Feel free to bring other drink preferences.

DIRECTIONS:

- Take I-80/35 to Exit 131 (Merle Hay Rd)
- Turn north on Merle Hay Road
- Go approximately 2 miles
- The Impact Dental Training Center is located on the east side of the street, in a business center with blue awnings
- Next to the dental office of Drs. Alan Swett & Connor Elmitt

HOTELS:

- Exit 131 (Merle Hay Road): Holiday Inn & Suites or Ramada Tropics Resort
- Exit 129 (one exit to the west): Hilton Garden Inn, Holiday Inn Express, Fairfield Inn, Towne Place Suites, Microtel and Stoney Creek Inn

Please note:

- Participants are responsible for meeting all Iowa Dental Board requirements and deadlines.
- Course dates, fees, schedule and/or instructor subject to change
- A \$25 processing fee will be applied to all persons requesting a refund before course date including registrants who do not meet eligibility requirements.
- No refunds will be issued after the course date.
- No shows or failures for any reason, will not be issued refunds.
- \$37 charge will be assessed to all returned checks.
- Questions? Contact us at info@impactdentaltraining.com or 515.321.5942
