Approved Course Provider

SOLD OUT April 13, 2018 from 8:30 am - 12:30 pm
Added date: Friday, May 11, 2018 from 8:30 am - 12:30 pm
Added date: Thursday, May 31 from 5:30 pm - 9:30 pm

CEU News Alert! In October, 2017, the Iowa Dental Board passed new continuing education requirements for dental professionals. Starting September 1, 2018, dentists, dental hygienists and dental assistants are now required to have a minimum of one CEU for infection control and one CEU for jurisprudence each biennium. Dental assistants and hygienists must have the courses for their 2019 renewal. Dentists are required to have the courses for their 2020 renewal. Dental assistants are still required to have two CEU's of radiology update. CPR with the required hands on

Infection Control for the Dental Professional **1 CEU** **Instructor:** Lisa Swett, RDH, BS, MS

Overview: This course will meet Iowa Dental Board requirements for training dental personnel working in dental settings. Topics included in this course are disease transmission and prevention, PPE's, disinfection, instrument processing, infection control, sterilization, occupational hazards & government rules/regulations

Audience: This course meets Iowa Dental Board requirements for dentists, hygienists & assistants

Objectives: *At the completion of this course, participants should be able to:*

- Understand disease transmission and prevention
- Know the significance of the Bloodborne/Airborne Pathogen Standard
- Review the occupational hazards of dentistry and ways to protect themselves
- Review proper sterilization/disinfection techniques within dentistry
- Learn reasons for written protocols including post exposure requirements
- Prevent cross contamination in the dental setting
- Gain access to the latest in significant rules, regulations and agencies related to infection control in the dental setting

Iowa Dental Jurisprudence **1 CEU*** **Instructor:** Lisa Swett, RDH, BS, MS

Overview: The course is designed to meet the new one hour CEU Iowa Dental Board required course for dentists, dental hygienists and dental assistants and covers the Iowa Administrative Code 650: Dental Boards.

Audience: This course meets Iowa Dental Board requirements for dentists, hygienists & assistants

Objectives: *At the completion of this course, participants should be able to:*

- Highlight the latest changes/updates to the Iowa and Administrative Codes as they relate to dentistry
- Convey information regarding the Iowa Code and Administrative Code that relates to dentistry
- Understand the rules and regulations under which dental team members can practice in the State of Iowa
- Review areas such as licensure, continuing education, renewal & reinstatement, discipline, prescribing, administering & dispensing drugs, standards of practice & principles of professional ethics

* The Iowa Dental Board did not approve any jurisprudence courses at its January 2018 meeting. We were asked to resubmit our course under a new outline they have provided us. Approval pending April 6, 2018 meeting. If we haven't heard by the class date, our previously approved 2 CEU jurisprudence course, will be substituted for the same cost.

Dental Radiology Update **2 CEU's** **Instructor:** Terri Deal, QDA, CDA, EFDA

Overview: Course meets Iowa Dental Board requirements for training dental personnel in dental settings. Topics included in this course are the theory of radiation/production of x-rays, uses of dental radiography, radiation protection, quality assurance plans, radiographic techniques, identification and correction of common errors.

Audience: all team members but this is a required course for dental assistants

Objectives: *At the completion of this course, participants should be able to:*

- Understand theory of radiation and how it relates to the production of x-ray beam
- Understand parts of the x-ray machine
- Understand uses of radiography and types of films used in dentistry
- Review ways to protect patient and operator during exposure
- Understands purpose/requirements of quality assurance plan
- Review paralleling and bisecting techniques
- Understands purpose, techniques and principles for exposing bitewing, periapical and full mouth series.
- Review radiographic errors and understands ways to correct the error
