

## HAKU

The Chumash Indian Museum offers insight and education into the culture and history of the Chumash people of California, and an opportunity to explore and appreciate the magnificent oak groves and mountains of this jewel of Southern California. Oakbrook Park is a state-designated archaeological site and a prime example of the rich land where Chumash flourished for generations.

The Chumash Indian Museum offers a rich selection of programs including: Guided Nature Hikes, Lecture Series, and Tribal Gatherings.

Our Museum Store offers gifts, books, and one-of-a-kind Chumash inspired jewelry and art and crafts.

All proceeds fund the preservation of existing exhibits and the addition of new exhibits for the museum.
