So, here it is: 5 ways to say I Love You to your dog...

1. Gaze deeply into their eyes... This is a trick that trainers use all the time... It says - I care about you and I am focused on you.
2. Raise your eyebrows... This is because that is what they do when their owners approach them...
3. Lean on Them... Because that like being of some assistance to you
4. Let Them Sleep with You... not much to say here except, make sure they are flea/tick free...
5. Just be Yourself... Animals can tell when you are being inauthentic...
