

# BD Veritor™ Plus System

## Purchasing and Support Guidelines for Epson Printer & Media (U.S.)

### Introduction

The BD Veritor™ Plus Analyzer is compatible with several Epson professional series receipt and label printers. One is highlighted below. The Epson printers are sold with different input connection combinations; any version with a USB port is compatible. Use the information below to contact the supplier NETS – PG for all printer questions and special BD pricing and programs.

### Recommended Printer Model

TM-m30: Smallest receipt printer. Uses 3-inch (80 mm) wide roll paper and includes an auto-cutter.

### Printer Cable

The BD Veritor™ Plus Analyzer requires a custom printer cable. The required cable configuration is USB OTG “Micro-A” to USB “B.” A compatible cable is supplied with the Starter Kit outlined below.

### Replacement Media

Paper and label media is available from NETS – PG with preferred BD pricing. Ordering information for the proper replacement media (TM-m30: 3 inch/80 mm wide thermal paper roll) can be found below.

### Starter Kit

Region	I/O Configuration	Kit Number ID	Printer Model	Included Media	Accessories	Insert
U.S.	USB/Ethernet	BD-VERITOR-M30-WHITE	TM-m30 	10 rolls	Printer Cable	Info Sheet

### Receipt Paper

Region	I/O Configuration	Kit Number ID	Printer Model	Included Media	Accessories	Insert
U.S.	n/a	M30-REPLACEMENT THERMAL MEDIA	n/a	10 rolls	None	None

### Purchasing a Printer and/or Media

Contact NETS – PG  
[www.nets-pg.com/BDorders](http://www.nets-pg.com/BDorders)  
(603) 552-5513  
(Special BD customer pricing is available)

### Technical Support

For printer and/or media support, contact USA Epson Tech Support (562) 276-1314 and select option #1. Additional support is available through NETS-PG at (603) 552-5513.

For BD Veritor™ Plus System support, contact BD Customer Service at (800) 638-8663.
