FAITH

REFOCUSED

A YEAR OF RECOVERY

Message from Pastor Jones

To the Disciples of Christ at FBCOG:

I greet you in the name of our Lord and Savior Jesus Christ!

As we have come now to this time of fasting and prayer, I want us to take seriously this time of fasting together. For the next 40 days we will continue daily to pray and seek God's power to transform our lives. Due to COVID-19, we are praying for God to heal our land. **2 Chronicles 7:14** *"if my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land."* I pray this time of spiritual renewal will be a blessing to all who partake.

These 40 days of fasting and prayer will be designed to help us as a church prepare to refocus, refuel, and reaffirm our faith. We must remain focused on God's Kingdom in 2021! The devotional guide and fasting outline will help to keep us on target during the Lenten Season. It is important that you make every effort to submit to what we are doing as a corporate body of believers so that we will reap a corporate harvest.

I ask each and every one of you to please take this seriously and devote each day to reading, prayer, and reflections while fasting together.

In His Service,

DANIEL FAST

What is **fasting**?

In the Old Testament, the word “fast” was derived from the Hebrew term *tsom*, which refers to the practice of self-denial. It was Hannah, who later became the mother of Samuel, who was so troubled about her inability to have children that “she wept and did not eat.” (1Samuel 1: 7, NIV) In the New Testament, the word “fast” is derived from the Greek word *nesteia*, which also refers to self-denial. When Jesus began his public ministry, He did so with an extended fast of 40 days (Matthew 4:1-2).

Fasting is abstaining from food for a spiritual purpose. Fasting is not a tool to twist the arm of God so that He will give you exactly what you want. The purpose of fasting is to get your flesh out of the way so that the Spirit of God can move in your life. Fasting removes the barriers to communication with God and allows your spiritual nature to commune directly with the heavenly Father-without distractions or disturbances

Important: If you have a special dietary need, please consult your physician before starting the Daniel Fast. You can modify the fast to meet your health needs.

FOUR KINDS OF FASTS

Be sure to consult your doctor before beginning any of the fasts listed here, especially if you have been diagnosed with any kind of medical condition

1 THE NORMAL FAST is going without food for a definite period which you ingest only liquids (water and/or juice). The duration can be 1 day, 3 days, 1 week, 1 month or 40 days. Extreme care should be taken with longer fasts, which should only be attempted after medical advice from your physician.

2 THE ABSOLUTE FAST allows no food or water at all and should be short. Moses fasted for 40 days, but this would be a challenge for anyone without supernatural intervention.

3 THE PARTIAL FAST omits certain foods or is on a schedule that included limited eating. Elijah practiced partial fasts at least twice. John the Baptist and Daniel with his three friends are other examples of those participated in partial fasts.

4 A ROTATIONAL FAST consists of eating or omitting certain families of foods for designated periods. For example, grains may be eaten only every fourth day. The various food families are rotated some food is available each day.

The Daniel Fast

In those days I, Daniel was mourning three full weeks. I ate no pleasant food, no meat or wine came into my mouth, nor did I anoint myself at all, till three weeks fulfilled. Daniel 10:2-3 (NKJV)

THE DANIEL FAST IS A BIBLICALLY BASED PARTIAL FAST. THE DANIEL FAST, ESSENTIALLY REQUIRES THAT WE EAT ONLY FRUIT AND VEGETABLES, AND DRINK ONLY WATER.

There are two anchoring scriptures for the Daniel Fast. In Daniel (specifically Daniel 1: 12-13), the Prophet (Daniel) ate only vegetables (that would have included fruit) and drank only water.

In Daniel 10: 2-3, we read that the Prophet ate no meat nor any precious breads or foods and he drank no wine for 21 days. Here at FBCOG we fast for 40 days as we model the example of Christ in Matthew 4:1-2. From this we see that we should abstain from sweeteners (including artificial) and no breads are allowed on the FBCOG Daniel Fast.

Spiritual Preparation:

- Designate a specific time of day that you will spend in prayer and meditation with God and try to stick to it.
- Make a list of the things you want to commit to prayer during this period.
- Always keep in mind that fasting without prayer is a diet.
- Use your prayer time in prayer to express your gratitude, confess your sins, ask for forgiveness, make your petitions and intercessions and for God's will for you to manifest in your life. Then thank God.

During the Daniel Fast you will not consume any sugar or sweeteners except for those provided in the list below nor will you have any caffeine or artificial chemicals. Many people experience a physical detox during the first few days, which may include headaches, fatigue, leg cramps and other typical symptoms. You can reduce these effects by weaning yourself from these foods before the fast begins by drinking at least ½ gallons of filtered water each day before, during and after the fasting period. Anytime you have concerns about symptoms you may be experiencing, please be sure to contact your healthcare professional. **Fasting should never be harmful to the body.**

If you have a special dietary need, please consult your physician before starting the Daniel Fast. You can modify the fast to meet your health needs.

Pre-Fast Suggestions for an Easier Transition

The Sunday before Ash Wednesday:

- Switch from caffeine products to decaffeinated herbal teas
- Increase water consumption – try to drink at least eight 8oz glasses of water daily
- Eat lighter meals preferably fish or chicken
- Eliminate/cut back on eating sweets, cooking with fats, using butter and white starch products
- Take an age appropriate multivitamin throughout the fast
- Exercise at least 20 minutes a day

Cooking Methods: Stir-fry, Grill, Sauté, Steam, Stew, Puree

Preparation: Slice and cube as many vegetables as possible and store in good quality plastic bags. This helps to speed up meal preparation time. Most vegetables will last several days if stored properly. Test your creativity by doing a different medley each time.

During the Fast:

- Eat 6 to 8 times per day
- Drink 8 to 10 glasses of water
- Try to eat every two hours, keep snacks like carrots or nuts handy
- Try making your own salad dressings

SUNDAY OPTION: We recognize that fasting is a lifestyle into which we must grow. As a result, we have chosen to allow the optional eating of baked chicken or fish on Sunday. Dealing with COVID-19 Mental Health and COVID Stress

The COVID-19 pandemic has disrupted our lives in profound and unprecedented ways. In the face of something as sudden and far-reaching as this pandemic, we can feel powerless. During the COVID-19 pandemic, concerns about stress and mental health have grown. In January 2021, 41% of adults reported symptoms of stress, anxiety and/or depressive disorder. The COVID-19 pandemic presents an ongoing disruption to our everyday lives that has significant implications to our psychological wellbeing. This pandemic presents an ongoing disruption to our everyday lives that has significant implications to our psychological wellbeing.

While most people will not develop psychiatric disorders as a result of the stressors related to the pandemic, it is natural for some to experience symptoms such as sleeplessness, anxiety, depressed mood, and feeling overwhelmed.

That's why mental health providers are concerned about everyone, including those who aren't in high-risk situations like health care workers or patients who have survived a serious case of COVID-19. In May, the U.S. Census Bureau released data revealing that one-third of Americans reported showing signs of clinical anxiety or depression. The data was based on a survey conducted in a one-week period that drew 42,000 respondents.

It is critical to pay special attention to how we are feeling. Checking in with yourself on a daily basis is key. Airline safety briefings remind us to put on our own oxygen mask before helping others in the event of an emergency. Attending to your mental health and psychosocial well-being while caring for patients is as important as managing your physical health. Ask yourself, 'How am I feeling? Am I getting enough sleep? Am I feeling overwhelmed?' If there is an area that needs to be addressed, identify the people or resources you can turn to. Monitor yourself for symptoms of depression/stress disorder such as prolonged sadness, difficulty sleeping, intrusive memories and/or

feelings of hopelessness. Be open to seeking professional help if symptoms persist or worsen over time.

Take breaks from the news and social media. Make a regular habit of stepping away from your computer and smart phone from time to time. When returning online, focus on information from reputable sources, not just sources in your social media feed. Get some fresh air !Social distancing doesn't mean you can't go outside as long as you keep a distance from anyone who isn't part of your family. Go for a walk! Take a hike! Do some outdoor yoga! The natural world is your oyster. Dive in.

We're all experiencing heightened stress, anxiety about our health and safety, along with the negative emotional impacts of physical distancing. Some people are facing much more extreme hardships, such as the death of a loved one or elevated risk of poverty and homelessness. Most if not all of us are worried about people we love—whether it's a relative, friend, or our community as a whole. Although we want to support each other, we often don't know where to start. But even the smallest acts of care can help others and contribute to renewing our sense of strength as individuals and communities.

One of the best things you can do for your friends and family is simply to reach out. Call, text, and email the people you love, and invite them to talk openly about the fears and day-to-day challenges they're experiencing. Make a special effort to connect with anyone in your community who may be particularly vulnerable, perhaps because they live alone, they're at higher risk from this disease, or they struggle with a mental health challenge. Talking about stress, mental health, and hardship can be uncomfortable, but just acknowledging that someone is struggling truly does help.

Our anxiety is helping us cope, bond together from a physical distance, and slow the spread of the virus. So our anxiety - while uncomfortable - is a good thing right now, especially if we manage it well. At the same time, we must prevent panic contagion and create periods when we can be screen-free and calm, engaging our attention in normal daily activities. Seize opportunities to share lightness and humor. Laughter right now is a relief for all of us!

A message to Families about praying and fasting together

YOUR CHILDREN CAN FAST WITH YOU!!!!

Explain to them that fasting will help them grow stronger as Christians and get closer to Jesus. When they take special time out to pray to Jesus and at the same time, take special effort to not enjoy a favorite food/snack item or activity during a certain period of time, they are fasting.

As a Family, sit down together and talk about for whom or what your children are seeking God and in which way they are going to fast. Then, have your children write down their decisions on a card and you do the same and refer to it during the fast to remind yourselves of the commitment you have made during the fast. Explain to your children that there will be times when they will find it hard to fast and may even want to change their minds in the middle of the fast. However, as Parents, gently encourage them and help them keep the commitment they made to the Lord and see how God answers their prayers. Following the 40 Days of Fasting and Praying, sit down with your children and talk with them about the objectives they set prior to the fast and what the Lord did during this special time.

Remember that a child's body needs the proper nutrition and activity as well as rest to keep them healthy and whole. They don't need to fast complete meals or healthy food choices for days at a time or give up on exercise that playtime affords. Children respond best with a set schedule, so be sure to create one where they will know which days they will be fasting and what exactly they are fasting (from).

the best IDEAS FOR KIDS

FASTING SUGGESTION FOR CHILDREN:

Their favorite cartoon or TV program

No TV, texting or electronics on a specific day/night. (Use this time to play games or spend quality family time together)

No “Fast Foods” for all of the 40 days

Abstaining from special snacks (candy, cookies, sweets, etc)

A final word about FASTING

- FASTING IS BIBLICAL (Daniel 2:2-3)
- FASTING IS A SPIRITUAL COMMITMENT (Daniel 1:8)

Be Specific and make a verbal commitment to the Lord:

Be clear. Before beginning your fast, write down a plan and a verbal commitment to the Lord.

When you approach your fast with determination and a clear goal you will be less likely to waiver in weak moments.

Berry Smothered Crepes

I (Anna) have never truly appreciated crepes, probably because they just never had a chance next to my beloved waffles! That is until out of nowhere, while two weeks into the Daniel Fast (when all such foods like waffles are eliminated) my new found craving for berries stirred an image of . . . yep, crepes smothered in berries! Just like that, BAM! A masterpiece was created that I now serve all the time! Enjoy!

Ingredients:

- 1 cup Whole Grain flour (I often mix different variations of whole grain flours together).
- $\frac{1}{2}$ cup unsweetened soy milk
- $\frac{1}{2}$ cup water
- $\frac{1}{4}$ teaspoon salt
- 2 tablespoons vegetable or olive oil

Preparation:

1. In a large mixing bowl, whisk together the flour, salt. Gradually add in the soy milk and water, stirring to combine; add the olive oil; beat until smooth (add additional milk or water to get desired pouring consistency).
2. Heat a lightly oiled griddle or frying pan over medium high heat; pour or scoop the batter onto the griddle, using approximately $\frac{1}{4}$ cup for each crepe. Tilt the pan with a circular motion so that the batter coats the surface evenly. Cook the crepe for about 2 minutes, until the bottom is light brown. Loosen with a spatula, flip and cook the other side.

Berry Topping Ingredients:

- 2 – 3 cups mixed berries (frozen or fresh- raspberry, blackberry, blueberry)
- $\frac{1}{4}$ cup corn starch
- $\frac{1}{2}$ cup cold water

Preparation:

1. In a small-medium size sauce pan, heat berries at medium-med-high heat (if frozen until thawed and juicy) if fresh, until berries are cooked down and also juicy, stirring frequently.
2. In a small bowl or cup dissolve corn starch in $\frac{1}{2}$ cup cold water. Gradually stir into berries, bring mixture to a bubble. Mixture should be thick enough to spread, if not add additional corn starch to desired thickness. Have fun and experiment with others fruit toppings such as peaches or apples with a sprinkle of cinnamon added.
3. Spread $\frac{1}{4}$ cup berry topping on open crepe, gently roll up placing seam on the bottom, top your crepe with additional berry topping. This is a delightfully cheery breakfast and even better when served alongside a platter of mixed fruit.
