

**Clay County Communities Revitalization Association
Press Release for Immediate Distribution
June 2018**

Jerry Taylor, left, and Shane Fuller of Penland Builders begin the layout of floor planks in the courtroom of the Historic Courthouse. To prevent damage to the boards during the renovation, each plank was removed and placed in storage. The boards were then carefully planed to restore much of their original color and patina and are now ready for service of another 140 years.
