This practical Sclerotherapy Training Program teaches you the injections techniques of Sclerotherapy

www. COPAVIN. Com
A step by step Guide to Sclerotherapy
Now in a Flash Drive, that you can take with anywhere
This 425 page manual that covers all a doctor needs to know, in order to successfully implement Sclerotherapy Procedure in his/her office or center.

The methodology presented is based on the practical and objective experience of numerous doctors, therapists and administrators whom have been dedicated exclusively and entirely to the treatment of varicose veins for more than 30 years, having treated thousands of patients of all nationalities and ethnicities in the U.S.

All the elements, techniques, and protocol involved in Sclerotherapy, is explained via the Sclerotherapy Cycle ten step graphic.

All elements and phases of Sclerotherapy are broken down both from a medical and managerial point of view.

Each chapter/step constitutes a milestone within the Sclerotherapy cycle. Chapters are presented in the same logical order in which the task occurs when treating a patient's varicose disease.

Checklist are provided to establish a communication interface between all personnel involved doctors, nurses, therapists, and administrators. This system will guarantee you will be able to truly learn Sclerotherapy, from A to Z.
Crown Medical presents their Book, & Courses in the same logical order in which each task occurs when treating a patient's varicose disease. Each chapter tackles a milestone within the:

"The Sclerotherapy Cycle"
Lesson No 1
Eleven Steps of the First Visit
Physical Examination
Functional Tests
3D Venous Map
Venous Classification—Multifactor Scale
Differential Diagnosis
Managing Therapy Options
Review & Charts, Summary of the First Medical Visit

Lesson No 2 The 3D Venous Map
Objective and Benefits of the Venous Map
Venous Map
Procedure for Filling out the Venous Map
International Venous Classification (CEAP)
Varicose Vein Scale and Categories
Charts and Summary of the Steps for 3D Venous Map

Lesson No 3 Vascular Tests
Types of Vascular Tests
Arterial Doppler
Steps for Arterial Doppler
Arterial Imaging
The How and Why of Venous Examinations
Techniques Used in the Examination
Deep Vein System
Superficial Vein System
Summary of Vascular Tests

Lesson No 4 Evaluating Test Results
List of Sclerotherapy Indications
List of Contraindications
Results Derived from the Second Visit
How to educate the Patient, Avoid Problems
Informed Consent
Charts and Summary of the Second Visit

Continue in next pages........
Lesson No 5 Therapy Estimates
Evaluating Test Results
Importance of Estimates, Why do we need estimates
Problems with the Estimates
Methodology for Making Estimates
The Six Steps methodology
Patient Index-Mathematical Formula
Therapist Index-Mathematical Formula
Estimate of Required Therapies
Mathematical Formula
Cost of Therapy
Determine your price level
Patient expectation
Charts and Summary of How to Make Sclerotherapy Estimates

Lesson No 6 Treatment Plan
How to prepare a treatment plan
Elements to be considered in the Treatment Plan
The 8 Steps for Developing the Treatment Plan
Goals to be Reached with Sclerotherapy
Pre-Sclerotherapy Recommendations
Summary Chart of the Estimate Process

Lesson No 7 Performing Sclerotherapy
Physiopathology of Sclerotherapy
Classification and Use of Sclerosants
Concentration of the Medication
How to prepare “DOSEAGE”
The Dichotomous Technique
The different Sclerotherapy Method or Schools

Lesson 8 The Essence of Sclerotherapy
The 13 Steps of Sclerotherapy
The 22 Most Important Injection Techniques
The Second Sclerotherapy
How to Control the Sclerotherapy
Charts and Summary of Sclerotherapy Procedure

CopaVine reserves the right to change or delete any and all items
Lesson 9 Sclerotherapy Complications
List of Sclerotherapy Complications
- Treatment for Each Complication
- Urticaria,
- Superficial Thrombus,
- Skin Necrosis,
- Blisters,
- Hyperpigmentation, etc.)
- Serious Systemic Reactions
- Eight Factors that Increase Risk of DVT/PE

Lesson 10 Sclerotherapy Control & Progress Report
Objectives of Controlling the Progress of Treatment
- How to prepare a Progress Report
- Type and Frequency of the Treatment Control
- Therapist Report on the Progress of Sclerotherapy
- Physician Report on the Treatment Plan

Lesson A – B – C (Included in the 5 day course only)
- Anatomy and Physiology of the Vein System
- Deep Vein System
- Superficial Vein System
- Perforators
- Anatomical References
- The Endothelium and its Functions
- Physiology of the Vein System
- Pathophysiology of Varicose Veins
- Manifestations, Conditions and Complications
- Photographic References / Before & After---Side Effects
- Graphical Summary of the Full Sclerotherapy Cycle

Lesson 11 Questions & Answers on Sclerotherapy
- Review of Main topics in Lesson 1 thru 10

Lesson 12
- Exercise and sample on each of the topics learn in lesson 1 thru 10 approximately One hour per Lesson doing developing samples and exercise
- Lesson No7 takes 4 Hours by itself

Lesson 13
- Open Discussion of topic learn in each lesson
- One hour for each Lesson 1 thru 10
All the Power Point Presentations with audio, it is the complete conference, in a separate Flash Drive.
You will receive the complete PPT presentation done at the conferences with audio as well as the material given in the

**Advanced Sclerotherapy Program**

Save Time, Money and be able to see over and over the injection's techniques,
Have you Protocol Manual on hand ... this is the best option for your sclerotherapy training
All the Sclerotherapy Course in 4 flash drives

1.- The Sclerotherapy Manual

Sclerotherapy Training

Learn with those that have been doing sclerotherapy and ONLY sclerotherapy for the pass 30 years
www.CopaVin.Com
Crown Medical conducts post-seminar surveys in order to maintain the utmost quality in our courses, and incorporates any and all suggestions that may arise. We conducted these surveys by groups in three phases, immediately after the seminar, six months after, and a year after. These are some of the most typical comments expressed by our students:

**COMMENTS**

“I can’t believe I didn’t do this sooner. I’ve missed out on a lot of time with my family, and money”.

“I didn’t know you could bill Medicare and some insurance companies.”

“After I took all the courses on performing Sclerotherapy, my life changed for the better.”

“Where were you guys? My only regret is not having done this course before.”

“I wish all my returns on investments were as solid as my decision to take your course. Thank you to Dr. Mason and Crown Medical”.

“Thanks for the class. As a Physician Assistant I can’t believe I didn’t take it before. It was 100% better than I thought, not only because of the presentations and materials but the didactics as well, you can tell the experience the professor has.”

“The only regret I have is not bringing my staff with me to the course. But now since everybody is trained, I can go on vacation and relax”.

“As an RN I’m glad I took this course. It has opened many doors for me. Now I have many doctors call me to work for them. They want my Sclerotherapy expertise”.

“I was thinking this course would be the same as all other CME’s, but Crown Medical made it easy and interesting. I found the practical application and teaching methods to be very helpful.” Impressive.
