

From the Office

We have a new entry phone number. It is 509.904.9847.

The rodeo at Cusick this year will be an enter every event (except barrels) twice. Team ropers must enter with the same partner if entering twice and do not switch ends. You do not have to enter twice but may if you wish to.

The Pro West Rodeo Association has implemented a new software for 2019 called Rodeo Management System! Members can login, use the online entry system, find all the information such as the rodeos you have entered, entry fees paid, winnings earned and any fines you may need to pay. You do not have to log in to your account to look at the rodeo schedule, draw, results or standings. The **website** "prowestrodeo.com" will remain your official news source even though we once again have information in a newspaper.

The draw is found in the "rodeo schedule" tab in the **Long Listings** at the **bottom of the rodeo** in a square **icon box or on the tab that says draw**.

If you have not renewed or purchased your 2019 membership you can now do so easily online at the prowestrodeo.com website—take advantage of this new system! If you are renewing your membership, please follow the instructions for logging in with your association number. Only those who wish to purchase a new membership will go through the "registration" process.

The Committee Appreciation meeting and year-end awards banquet will again be held this year during the first part of November. Watch for updates and plan to attend!

Have a great rodeo season and be safe in your travels!
