By becoming a member of the Professional Western Rodeo Association (PWRA, Pro-West, or the Association), you are agreeing to release the Association and other parties from liability. Please read this provision carefully. Members acknowledge that rodeo events, including Pro-West sanctioned events, are inherently dangerous activities. Members further acknowledge that participation in a Pro-West sanctioned event (whether as a competitor, independent contractor, official, laborer, volunteer or observer) exposes the participant to substantial and serious hazards and risks of property damage, personal injury and/or death. Each member, in consideration of his/her membership in the Pro-West and his/her being permitted to participate in a Pro-West sanctioned event in any capacity, does by such membership and participation agree to assume such hazards and risks. Each member further agrees to discharge, waive, release and covenant not to sue the Pro-West, all Pro-West sponsors, all members (including, without limitation, contestants, permit holders, stock contractors, rodeo committees, rodeo producers, and contract personnel) and any other Pro-West sanctioned event production entity (and each party's respective officers, directors employees, and agents), from all claims, demands, and liabilities for any and all property damage, personal injury and/or death arising from such member's participation in a Pro-West sanctioned event. This discharge, waiver, and release includes claims, demands, and liabilities that are known or unknown, foreseen or unforeseen, future or contingent, and includes claims, demands, and liabilities arising out of the negligence of the parties so released by such member. Furthermore, where permitted by applicable law, this discharge, waiver and release also includes claims, demands and liabilities arising out of the gross negligence or willful and wanton misconduct of the parties so released. This discharge, waiver, and release also include claims, demands, and liabilities by a member for indemnities and contributions arising from property damage, personal injury and/or death to a third party. In the event that any provision of this discharge, waiver, and release is determined to be invalid for any reason, such invalidity shall not affect the validity of any of the other provisions, which other provisions shall remain in full force and effect as if this discharge, waiver, and release had been executed with the invalid provision eliminated. The undertakings and covenants of the foregoing provision shall be binding upon each member, his or her heirs, legal representatives, successors, and assigns.

PART R: Professional Western Rodeo Association Official Rodeo Rules

R1.0 General Rodeo Rules

R1.1 The Association provides its own rodeo rules for rodeo contestants, stock contractors, judges, timers, central entry, arena secretaries, special contracts and committees.

R1.2 All members/contestants are required to read the rules carefully, particularly those relating to the events/activities in which they compete/participate in. Failure to understand the rules will not be accepted as an excuse. If members have problems understanding the established rules of the Association, members should contact their event/activity director, who will present the alleged problem to the Board of Directors.

R1.3 The Board of Directors will expect the cooperation of any member when called upon by one of the Association officials to represent the Association's interests (regarding enforcement of the rules) at any Association rodeo or in any matter of official business.

R1.4 The Association reserves the right to withdraw any members from competition in any Association rodeo which does not conform to the Official Rodeo Rules (Home town) and late entries in the team roping, tie down, breakaway and steer wrestling will go first in the draw for the performance or slack that they're drawn up for. Barrel racers will go last. (amended 1/2018).

R1.5 Other than the finals rodeo, all Association rodeos shall be open to all members to compete (except suspended members and limited events). Non-members will be allowed to compete in one rodeo per year. The exception would be co-approving association card holders at a co-approved rodeo.

R1.6 The committees and Association assume no responsibility or liability for injury or damage to the person, property, or stock of any owner, contestant, or assistant. Each participant by the act of their entry or their presence on the rodeo grounds waives all claims against the committees, stock contractors and Association for injuries to them or their stock and damage to their property. Any contestant under eighteen (18) years of age must submit authorization and release of liability to participate in Association rodeos from a legal guardian or legal parent at the time membership dues are paid.

R1.7 Contestant/Dependent Passes

R1.7.1 Each contestant, contract personnel and PWRA queen will receive one companion or complimentary pass for the number of dependents immediate family members indicated on their membership card.

R1.7.2 An individual is responsible for the actions of any person they give their complimentary pass to.

R1.7.3 If contestants ask to be set up on a specific day, passes will be provided the day they are up only.

R1.7.4 Proven misuse of passes by members shall result in a twenty-five dollar (\$25) fine. The board of Directors will determine if a member is guilty of misuse.

R1.8 No person shall be allowed in the arena or behind the chutes during an Association rodeo performance unless entered in an event or unless they have signed a waiver releasing the Association, committee and stock contractor from liability. This rule should be enforced jointly by stock contractors, rodeo committees and the Association.

R1.9 Contestants in the arena must conduct themselves in such a way to not interfere with the work of judges, timers, bona fide press and photographers or with the vision of spectators.

R1.10 If numbers are furnished by committees, contestants must wear them while competing so they are visible to the judges and spectators.

R1.11 If committees provide satisfactory seats for contestants, the Association will urge them

to utilize the seats and stay out of the arena when they are not scheduled to compete.

R1.12 The Association urges each member to ride in the grand entry if asked to participate.

R1.13 Dress Code

R1.13.1 All members/contestants must wear western hat, boots and long sleeved shirt with collar, while in the arena, the timed event boxes, on the fence, in the catch pen area or behind the chutes for one (1) hour prior to and during the rodeo and during slack.

R1.13.2 Sleeves must not be rolled up at any time with the exception of rough stock riders when they are competing.

R1.13.3 Violators of these dress code rules shall be automatically fined twenty-five dollars (\$25).

R1.14 If contestants can show they need protective equipment in place of western apparel, they will be allowed to compete with the equipment.

R1.15 Holding Stock - No stock/runs in any event, except for rerides or reruns, may be taken before the first section of that event in a performance, nor held beyond the end of that event or run on the cattle. If a rodeo committee indicates on their approval form that stock can be held to the end of a performance and if a telephone/cell phone number is listed on the approval form and/or in the newspaper, stock will be held to the end of a performance unless the run on the cattle does not allow the delay in timed events. In order for stock or barrel racing run to be held, the arena secretary must be notified by a contestant that stock or barrel racing run needs to be held for a legitimate rodeo reason before stock/run has been turned out. If a barrel racing run is held, no additional ground preparation will be done.

R1.16 Filling Short Go-Round - Only the specified number of high contestants for a short or final go-round will be eligible to receive their final head. The only exception is if a rodeo is lacking qualified contestants for the short or final go-round and in that case, the next available qualifying contestants may take their place before stock is drawn. If no qualified contestants are available, the short or final go-round shall be filled by drawing the required number of contestants from those available prior to stock draw. No changes in the short or final go-around contestants will be made after the draw.

R1.17 Judges', Timers', and Arena Secretaries' Pay

R1.17.1 For one go-round rodeos with at least two paid performances the committee or stock contractor will pay three dollars (\$3) per contestant per paid performance ($\$3 \times \text{total number of contestants entered in a rodeo} \times \text{total number of paid rodeo performances}$). Slack will be treated as a paid performance when it is not on the same day as a regularly scheduled rodeo

(i.e. paid performance) or there is an admission charge at the gate for slack. (amended 1/2017)

R1.17.2 For one go-round rodeos with at least two paid performances all contestants will pay five dollars (\$5) per entry. For rodeos that do not have adequate numbers of entries to pay the judges, timers, and arena secretary, the Association will guarantee one hundred seventy-five dollars (\$175) per paid performance to each judge, one hundred twenty-five dollars (\$125) per paid performance to each timer and two hundred seventy-five dollars (\$275) per paid performance to the arena secretary. Judges, timers and arena secretary will also receive \$1 for each run in slack if slack is on the same day as a paid performance and is not charged a gate fee and /or is not promoted as an additional performance. (amended 1/2017)

R1.17.3 If the total of the contestant and committee charges fail to cover the minimum required to pay judges/timers/arena secretary, the committee and Pro-West will split the deficit amount.

R1.18 Rodeos that have contest stock to run before or after scheduled paid performances shall post the order of events at the rodeo office unless the order of events is the same as in paid performances.

R1.19 If contestants and/or assistants are caught attempting to cheat or cheating in an event in anyway, they and anyone deemed by the judge to be knowingly involved shall be disqualified and fined whether they have competed or not.

R1.20 No contestant may talk to a judge or timer in any way while an event is going on. Questions may be addressed to a judge or timer no sooner than at the end of a section of an event. At the discretion of a judge or timer, final resolution of questions/problems may not occur until after the end of a performance. Any contestant violating this rule will be reported to the Association Office by the timer, judge, arena director, or stock contractor of the rodeo where the violation occurs.

R1.21 Any rule not covered in this Association rulebook shall be referred to the Association officers and directors, or the PRCA rulebook and/or the PRCA judges' handbook shall be referenced when rodeo arena rules require supplements to rules in this Association rulebook. However, under no circumstance shall the PRCA rulebook or judge's handbook be used to replace or supersede Official Rodeo Rules contained in this Association rulebook.

R7.2 Pro-West seeks an open working relationship with state humane agents and inspectors. The Association welcomes inspections and visitations by legitimate humane agents and officers duly commissioned and currently employed by a recognized federal, state or local agency. However, due to the potential liability created when visitors enter areas where livestock is being penned, the Association reserves the right to limit entry to those inspectors/agents who are knowledgeable in the matters of livestock handling and inspection. Additionally, the Association asks that inspectors be accompanied by an experienced livestock handler/event official to avoid injury and/or liability resulting from such visits. Other visitors are not permitted unless entry is granted by an event official. Humane agents/inspectors must show agency credentials at time of inspection. The Association actively promotes the humane treatment of all animals engaged in rodeo events and engages in education and outreach programs with event sponsors and livestock contractors in an ongoing effort to foster a humane atmosphere for all animals engaged in rodeo events.

- a. If a stock contractor's flank or halter breaks any time during an eight-second ride and the rider makes a qualified ride to that point, the rider will receive an option for a Reride whether a qualified eight-second ride is made or not. Note rider may double grab or get bucked off after flank or halter breaks and shall still receive a Reride.
- b. If a flank comes off any time during an eight-second ride and the rider makes a qualified ride to that point, the rider will receive an option for a Reride whether a qualified eight-second ride is made or not. Note rider may double grab or get bucked off after flank comes off and shall still receive a Reride.
- c. If any equipment owned by a contestant breaks or comes off any time during an eight-second ride, no Reride option will be awarded.
- d. If a saddle bronc halter comes off any time during an eight-second ride, no Reride option will be awarded regardless of who owns the halter, the contestant or stock contractor. The fit and tightness of a bronc halter is the sole responsibility of the contestant.

R8.3.5 There will be no tape or any other adhesive material or substance other than dry resin used on riggings, rider’s glove, or rider’s hand. Glove will be a plain glove with no flaps, rolls, wedges, or gimmicks. Rider may have a single layer of sheepskin or leather under handhold and either one shall be glued down. R8.4.4 Riders may cinch their own saddles. Saddles shall not be set too far ahead on the horse's withers. Either stock contractor or contestant has the right to ask the judges to pass on whether or not a horse is properly saddled and flanked to buck its best. The middle flank belongs to the rider, but the contractor may have a rider put the flank beyond the curve of a horse's belly and the flank cinch may be hobbled.

R8.6 Youth/Novice Event Rules

R8.6.1 The Professional Western Rodeo Association encourages rodeos to have novice events in the bareback, saddle bronc, and bull riding.

Committees are not required to provide any added money in these events.

Committees may hold a novice event in any one, two, or all three rough stock events.

R9.1.1 There will be two (2) timers, a field flag judge and a barrier judge. Times to be taken between two (2) flags and only times recorded between two (2) flags shall be official and recorded. Calf roping, breakaway roping, steer wrestling, and team roping shall be timed manually and averaged by two timers to the one-hundredth (1/100) of a second. Barrel racing shall be timed to the one-one thousandth (1/1000) of a second with an electric eye unless manual times must be used for which times will be taken and averaged to the one-hundredth (1/100) of a second by two (2) timers.

R9.1.2 All changes in the contesting order to split horses or teams must be made before any stock for that section is loaded in the chute. After stock is loaded, contestants must rope in the listed order.

R9.1.3 Liners appointed by the barrier judge shall be used in the calf roping and breakaway roping. Liners shall maintain the same position and distance for all contestants in an event. All changes in the contestant order to split horses or teams must be made before rodeo starts at the office by the secretary or a judge. Amended 3/5/17

R9.1.4 In order for time to be considered official, barrier flag must operate and flagger must flag contestant.

R9.1.5 Horses other than those of the contestant “up” will not be allowed in the box area (either side).

R9.1.6 Timed event pushers cannot go beyond the end of an open chute gate when pushing cattle for contestants until the animal has tripped the barrier.

R9.1.7 During any performance, if an animal in the timed events escapes the chutes or pens before it is called for by a contestant, or if the automatic barrier fails to work and the stock is brought back, that animal will be returned to the arena by the arena director and the labor crew during or at the end of that performance in the same manner it was worked or brought to the pens for contesting. At least three (3) head of animals will be brought back together. NO animal may be re-penned by himself. Decisions will be made by the arena director about when stock is returned and re-penned.

R9.1.8 In all roping events, a completely dropped rope that must be recoiled or the loop rebuilt is considered a thrown rope.

R9.1.9 The catch pen gate will be open in all timed events with the exception of steer wrestling, and barrel racing in all one (1) go-round rodeos.

R9.1.10 There will be a thirty (30) second time limit in the tie down roping, breakaway roping, steer wrestling, and team roping.

R9.1.11 A field flag judge must ask contestants if they want a second loop or jump. Contestants must reply at once. No immediate effort from contestants will signify the contestants' decision to not attempt a second jump or throw a second loop. Once contestants have been flagged out, they shall receive no reruns.

R9.1.12 No contestant horses or stock shall be penned overnight in the timed event boxes. An automatic fine of twenty-five dollars (\$25) per head of stock penned shall be assessed for all violations.

R9.1.13 Anyone roping or attempting to rope an animal not under contest conditions shall be automatically fined fifty dollars (\$50) and may be ejected from the arena for the remainder of the rodeo.

R9.2 Barrier

R9.2.1 Automatic barriers will be used in all timed events with the exception of barrel racing.

R9.2.2 Barrier Specifications

- a. The timed event chute must have at least twenty-eight inches (28") clearance inside the chute and at the gate when in an open position.
- b. The barrier height must be thirty-two inches (32") to thirty-six inches (36") from the ground at center of box.
- c. The Pro-West shall provide all arena secretaries a set of barrier box pads to be furnished at each rodeo.

- e. Barrier rope from pulley to neck shall be ½" rope all the way through. No nylon web strap. (adopted 1/2014)

R9.2.3 Barrier Procedures

- a. Barrier equipment must be inspected by the judges before each timed event. If equipment is faulty, it must be replaced. If the barrier breaks at any point other than the designated breaking point, the decision is up to the barrier judge. If contestant obviously beats barrier, but the staples are pulled or barrier rope is broken, but string is unbroken, barrier judge may assess a ten (10) second penalty. Otherwise, this will not be considered a broken barrier.
- b. The barrier judge shall keep a record of the length of the barrier neck rope in each event to assure the same start for contestants each performance.
- c. The barrier judge shall stand on the same side of the barrier as roper/steer wrestler/header leaves from.

- d. The barrier judge is responsible for changing the barrier string whenever it may have become weakened or upon the request of the next contestant.
- e. A ten (10) second penalty will be added for breaking or beating the barrier.
- f. At the discretion of the barrier judge, if contestants obviously beat the barrier prior to the barrier malfunctioning or fouling contestants, the contestants, after either declaring themselves or qualifying, may take their stock over with the ten (10) second penalty.
- g. In all timed events, a barrier will not be considered broken if any part of the pigtail drops more than ten feet (10') from the pin post unless contestants obviously beat the barrier in the opinion of the barrier judge.

R9.3 Lengths of Scores

R9.3.1 Definitions of Length of Score

- a. Low neck pulls (pulley system located at approximately barrier height): the length of the score will be defined as the distance from the bottom of the barrier post containing the pinning rings to a line determined by stretching the neck rope to the ground with the barrier pin in place, and adding twenty-four inches (24") for steers and eighteen inches (18") for calves.
- b. High neck rope pulls (found on Powder River and similar chutes): the length of the score will be defined as the distance from the bottom of the barrier post containing the pinning rings to a line determined by stretching the neck rope to the back of the knee with the pivot arm in an upward position and the barrier pin in place, and adding twenty-four inches (24") for steers and eighteen inches (18") for calves.

R9.3.2 Setting Score Lines

- a. Score lines will be set by the judges unless other arrangements are made by the event director.
- b. Lengths of score lines will be set prior to the first draw of cattle.
- c. The length of the arena, arena conditions, the cattle, and the length of the boxes will be used to determine score lengths.
- d. Once score lines have been set, they will not be changed for that rodeo nor can the length of the boxes be changed during a rodeo.

R9.3.3 Tie Down Roping/Breakaway Roping Scores

- a. At outdoor rodeos, the length of the score shall be no shorter than the length of the box minus six feet (6').

- b. At indoor rodeos, the length of the score shall be no longer than the length of the roping box minus three feet (3’).

R9.3.4 Steer Wrestling Scores

- a. The score length shall be no longer than the length of the steer wrestling box minus five feet (5’). (adopted 1/2012)
- b. If the steer wrestling box measures less than twelve feet (12’), steer wrestling shall be lap and tap.

R9.3.5 Team Roping Scores

The length of the score shall be no shorter than the length of the team roping box minus six feet (6’).

R9.4 Reruns

R9.4.1 Fouls/Interference/barrier malfunctions

- a. If contestants know they got fouled, interfered with, or know the barrier malfunctioned, they must declare to be eligible for reruns. If they do not declare, they have accepted the foul/interference or barrier malfunction and runs are final.
- b. If contestants are unaware of a foul/interference or barrier malfunction or time is not recorded, they must make a qualified run to be eligible for a rerun.
- c. If an animal stops and fails to break the neck rope string and a contestant declares to the line judge, the contestant will be considered to be fouled and will be eligible for a rerun. If a rerun is awarded, the animal shall be removed from the herd for the remainder of the rodeo.
- d. If header ropes a steer, but heeler declares team, team will be eligible for a rerun.
- e. All penalties will be carried forward to the rerun if the foul/interference, barrier malfunction, or unrecorded time did not physically affect the contestant's run and did not cause the penalties.

R9.4.2 If contestants are fouled at the barrier by failure of any kind of barrier equipment and declare themselves or qualify under the above rule for a rerun, contestants must take the same stock back before the stock is redrawn.

R9.4.3 Animal Not Tripping Barrier or Not Crossing Score Line

- a. If animal does not trip the barrier rope when both in front of the barrier and between the outer fences (extended to the score line), the contestant is eligible for a rerun, provided he/she immediately declares to stop the run.

- b.** Animals not crossing score line in front of liners or cattle not making it past end of liners before ducking back will be rerun, or new animal drawn for contestant, provided contestant declares self to stop the run.
- c.** If animal does not cross score line before ducking back and escapes or interference occurs, contestant will receive a rerun penalty free provided contestant declares self to stop the run.
- d.** If animal does not break neck rope string before escape, foul, or interference, no elapsed time will be added to subsequent rerun. A new animal shall be drawn for contestant and the original animal drawn shall be removed from the herd for the remainder of the rodeo.

R9.4.4 In any timed event, if an animal escapes from the arena (**Note:** the timed event boxes are not considered part of the arena), the flag will be dropped and the watches stopped.

- a.** When the contestant gets the animal back for a rerun, barrier judge will flag the animal at the first initial move at the chute and the time already spent will be added to the time used in qualifying.
- b.** If the time is not recorded, the contestant will be eligible for a rerun with a five (5) second penalty.
- c.** If the rope is on the animal, the roper will get the animal back lap and tap (barrier judge to flag the animal at the initial move out of the gate) with the rope on it in the chute.

R9.4.5 In the case where a field flagger flags out a contestant with a loop/jump remaining, they will be awarded a rerun and receive a five (5) second penalty for each loop/jump already thrown/taken.

R9.4.6 For the welfare of the animal, if contestant observes animal to be obviously injured prior to or during the course of a run, he/she may declare and be eligible for a rerun. If the judges agree that the animal is injured and cannot be contested on, a rerun will be awarded on a redrawn animal with all penalties applying and the injured animal will be removed from the herd for the remainder of the rodeo.

R9.5 Tie Down Roping

R9.5.1 Flagger shall be positioned down the arena from the timed event chute so they are always in front of the competing contestant and to the competing contestant's left (unless roper ties left handed and then flagger should be on roper's right).

R9.5.2 Two (2) loops will be permitted if roper carries two (2) ropes and uses the second rope for the second loop. Should the roper miss with both loops, he must retire and no time will be allowed.

R9.5.3 Neck ropes must be used on calf roping horses. In the tie down roping event a contestant will receive a no time and a \$100 fine for that run if he brings the animal over backwards (between 11 and 1 on a standard clock) with the animal landing on its back or head with all four feet in the air. (amended 1/2018)

R9.5.4 A contestant must adjust the rope and reins in a manner that will prevent the horse from dragging the calf. The drag rule goes into effect after the roper signals for time and the calf is cleared and;

- a. If a horse drags a calf over five feet (5') but less than ten feet (10'), a twenty-five dollar (\$25) fine shall be assessed.
- b. If a horse drags a calf over ten feet (10'), flagger may stop the horse and the contestant shall be flagged out and assessed a one hundred dollar (\$100) fine.
- c. Intentionally (i.e. caused by roper) dragging a calf, regardless of distance, shall result in disqualification and a two hundred fifty dollar (\$250) fine.

R9.5.5 The rope must be dallied or tied hard and fast; either is permissible. Contestant must rope calf (rope must leave hand), dismount, go down rope and throw the calf by hand and cross and tie at least three (3) legs.

R9.5.6 Any catch is a legal catch, but the rope must hold the calf until the roper gets a hand on the calf.

R9.5.7 To qualify as a legal tie, there shall be one (1) or more wraps around at least three legs and a half hitch (hooey). (The pigging string loop and hooey are not considered a wrap)

R9.5.8 If the calf is down when the roper reaches it, the calf must be allowed to his feet, or lifted high enough to be able to regain his feet and not just day lighted.

R9.5.9 If the roper's hand is on the calf when the calf falls after the initial jerk, calf is considered thrown by hand.

R9.5.10 The tie must hold until passed on by the flagger and the roper must not touch the calf or pigging string after giving finish signal.

R9.5.11 If a tie comes loose or the calf gets to his feet before the tie has been ruled legal, the roper shall be flagged out.

R9.5.12 The flagger must flag out any tie down roper who touches his catch rope after the calf is tied, after the roper signals for time, and before the roper remounts.

R9.5.13 The contest ends when the roper signals for time. At that point it is the roper's responsibility to remount, without hesitation, and provide slack to the rope. If any additional stress to the calf is caused by the roper after giving the finish signal, the roper shall be flagged out immediately and fined two hundred fifty dollars (\$250). This would include:

- a. Roper walking up the rope and/or "schooling" or otherwise intentionally causing the horse (by noise or by action) to add any additional pressure to the tied calf.
- b. If tie down ropers intentionally pull back their horses before giving slack to the calves after remounting.

R9.5.14 The flagger will pass on the tie of calves through use of a stop watch as follows;

- a. One (1) step forward by the horse and two feet (2') to three feet (3') of slack in the rope on the ground will be required to start the six (6) second procedure, after the roper has remounted his horse.
- b. The rope will not be removed from the calf and the rope must remain slack until the flagger has passed on the tie.
- c. The flagger must watch the calf during the six (6) second period and will stop the watch when the calf kicks free, using the time shown on the watch to determine whether the calf was tied long enough to qualify.

R9.5.15 The rope will be removed from the calf's body by arena help as soon as possible after "tie" is qualified.

R9.5.16 In the event a contestant's catch rope is off the calf after the completion of a tie, the six (6) second qualification time shall start when roper clears the calf.

R9.5.17 A roper shall be disqualified for removing the rope from a calf after signaling for time, unless the tie has been passed on or requested by the flagger.

R9.5.18 Contestants must receive no outside help of any kind unless they are injured while making a legal run. After flagging roper, the flagger can have someone mount roper's horse and step forward for the six (6) second qualification time.

R9.5.19 Any calf to touch or cross the line at the catch pen gate shall be flagged out. The line will be an imaginary plane between the gate posts. If animal is "caught" while still in the arena but crosses the catch pen gate

line and is brought back into the arena to complete the competition, the run shall be flagged out.

See Additional Rules Under General Timed Event Rules

R9.6 Steer Wrestling

R9.6.1 The flagger shall be positioned to the steer wrestler's left and part way down the arena to assure the correct position when watching the transfer to the steer and flagging the throw.

R9.6.2 Contestant must furnish hazer and horses.

R9.6.3 Only one (1) hazer will be allowed.

R9.6.4 The hazer must not render any assistance to the wrestler while he is working with a steer on the ground. Failure to observe this will disqualify the wrestler.

R9.6.5 Wrestler and hazer must use the same two (2) horses they leave the boxes with.

R9.6.6 The steer must be caught from a horse.

R9.6.7 Contestant will be allowed a maximum of one (1) jump at a steer at single go around rodeos. (Adopted 1/2012)

R9.6.8 If a steer gets loose after being caught, the steer wrestler may take no more than one (1) step to re-catch the steer.

R9.6.9 After catching the steer, the wrestler must bring it to a stop or change its direction of travel and twist it down.

R9.6.10 A steer will be considered down only when lying flat on its side or on its back with all four (4) feet and head straight.

R9.6.11 The wrestler must have a hand on the steer when flagged.

R9.6.12 If a steer is accidentally knocked down or thrown down before being brought to a stop or a direction change has occurred, or is thrown by the wrestler putting the animal's horns into the ground, it must be let up on all four feet (4') and re-thrown.

R9.6.13 Placing of fingers in eyes, lips, or nose of steer while wrestling same is forbidden.

R9.6.14 The fairness of the catch and throw will be left to the flagger and his decisions shall be final.

R9.6.15 No penalty shall be assessed for breaking a horn.

R9.6.16 Wrestlers will not be required to compete on crippled steers or steers with broken horn(s). If a contestant jumps at a steer, he accepts him as sound (however, see Rule R9.4.5 for exceptions).

R9.6.17 Wrestlers shall be disqualified if they attempt in any way to tamper with steers or chute.

R9.6.18 If only one (1) or less teams of steer wrestling horses are available at a paid rodeo performance, the committee has the option to delay the steer wrestling to immediately after that performance.

R9.6.19 The steer wrestling event shall be run before the barrel racing in any paid or slack performance to minimize the possibility of leg injuries.

See Additional Rules Under General Timed Event Rules

R9.7 Team Roping

R9.7.1 Association team roping may be “enter once” or “enter twice” per committee request on approval. (Adopted 1/2012)

R9.7.2 The flagger shall be positioned to assure the correct position at the beginning of a run and for flagging the contest depending on arena size and set-up.

R9.7.3 Each contestant will be allowed to carry one (1) rope and;

- a. Each team will be allowed two (2) loops in a one (1) go-round rodeo.
- b. Three (3) loops will be allowed in a two (2) or more go-round rodeo.

R9.7.4 A broken rope or dropped rope will be considered a thrown rope.

R9.7.5 A steer must be standing up when roped by the head or heels.

R9.7.6 If the header accidentally jerks a steer off his feet or the steer trips or falls, the header must not drag the steer over eight feet (8') before the steer regains his feet, or the team shall be disqualified.

R9.7.7 Legal head catches:

- a. Both horns.
- b. Half a head.
- c. Clean head.

R9.7.8 If a steer is roped by one (1) horn, the roper is not allowed to ride up and put the rope over the other horn or head with his hands.

R9.7.9 Legal heel catches:

- a. Any heel catch coming tight behind both front shoulders, if rope initially goes around heels.
- b. One hind foot receives a five (5) second penalty.

R9.7.10 Any heel loop thrown before or in the switch will be considered a crossfire resulting in a no time and;

- a. There must be a change in the steer's body direction and control by the header before loop is released by heeler or it will be crossfire.

- b. If the steer stops, the header must only get it moving forward before the heeler can throw the rope to be considered a legal heel loop.

R9.7.11 Illegal catches:

- a. If Hondo passes over one horn and the loop over the other.
- b. If loop crosses itself in a head catch (This does not include heel catches).
- c. If loop is in steer's mouth.
- d. Roping steer without turning loose of loop end of rope.
- e. Any question regarding catches will be decided by the judges.
- f. If the heeler ropes a front foot or feet in the heel loop, an illegal catch has been made. Neither roper may remove the front foot or feet from the loop by hand. However, should the front foot or feet come out of the heel loop by the time the field flag judge drops his flag, the time shall be considered official.

R9.7.12 Ropers must dally. Dally is considered completed when rope crosses itself with one full wrap around the horn.

R9.7.13 Both horses' front feet must be on the ground and ropers must be on horses and in control of same before time is given.

R9.7.14 Time will be taken when steer is roped, both horses face steer approximately in line, with ropes dallied and snug.

R9.7.15 Dallies must be held until flagged by judge.

R9.7.16 Any steer to touch or cross an imaginary line between out gate posts prior to being qualified on shall be flagged out.

R9.7.17 Steers must not be handled roughly at any time and ropers may be disqualified if in the opinion of the flagger they have intentionally done so.

APPENDIX A. Pro-West Gold Card Guidelines

AX1 Eligibility

AX1.1 Any Pro-West member or past member that is fifty (50) years or older and that is not on the Association ineligible list may be considered for a gold card. In rare cases, sponsors or others who have never been Pro-West members may be nominated for gold cards.

AX2 Longevity

AX2.1 Normally a person to be nominated for a gold card has been, or was a member of Pro-West for several years, usually at least ten (10) years and has attained an age of fifty (50) or more. However, the length of a person's Pro-West membership may become insignificant upon consideration of their overall contribution to the Association.

AX3 Contribution to Pro-West

AX3.1 There are two (2) main areas that are considered when evaluating a nominee for a Pro-West gold card.

- a.** The first is the ability and the number of event championships that were won by a competing member. An important consideration in this area is not only the number of year end championships associated with a person's career in Pro-West, but also the degree to which a nominee reflected a positive image on Pro-West and the sport of rodeo in general. The quality of a champion may more than make up for the number of year end championships won.
- b.** The second area is the overall contribution to Pro-West and the sport of rodeo. Nominees in this area will generally fall into the categories of officers/directors and contract personnel such as secretaries, timers, judges, announcers, clowns, bullfighters, stock contractors, committee members, sponsors, etc. Contributions may be in many forms such as monetary, personal time, influencing advancement/growth of Pro-West or a specific activity such as the finals rodeo, etc.

AX4 Selection of Pro-West Gold Card Members

AX4 Any person to be considered for a gold card must be nominated by a current Pro-West member. Nominations shall be in the form of a written list indicating the length of membership time and identifying the significant contributions of the nominee during the person's association with Pro-

West. The Board of Directors shall review the written nomination and a majority vote of the Board shall be required to award a gold card.

AX5 Privileges of Pro-West Gold Card Members

AX5.1 Nominees that are judged to be worthy of gold cards by the Pro-West Board of Directors shall have the same privileges and rights as both active competing and non-competing members of the Association. Gold card members will be provided their membership cards free of charge to them each year. Gold card members and one dependent shall be admitted to any Pro-West prime rodeo with no cost to them. From time to time, the Board of Directors may decide to provide other privileges to gold card members. However, gold card members must adhere to the by-laws and rules of the Association to the same standards and expectations as active members.

AX6 Duration of Pro-West Gold Cards

AX6.1 Gold cards shall be awarded for the lifetime of recipients. Gold cards are not transferable and become inactive when recipients become deceased.
