Contemplative Leadership is a one-year certificate program in spiritual deepening and contemplative leadership. It is ideal for both pastors and others seeking to deepen contemplation in ministry and life. Most participants will have previously found contemplative practices transformative in their personal life and desire to grow in creating and equipping contemplative groups in their communities.

The intent of Contemplative Leadership is three-fold:

- ~deepening contemplative living (personal transformation)
- ~growing contemplative leaders (leadership formation/transformation)
- ~equipping teachers of contemplation (leading groups in contemplation)
