Digital Video Consumption in the US: “According to eMarketer’s latest forecast of digital video consumption, 2016 will be the first time more than half of the US population will watch TV shows online at least once a month. In 2016, 164.5 million Americans will watch digital TV—50.8% of the US population. That’s a jump from 47.8% last year.” [Source: eMarketer]
