OUR STORY

After becoming a Certified Aromatherapist and Essential Oil Specialist creating Penny's Pure & Natural was the logical next step, for Penny.

Here, we can share what she's learned about Aromatherapy, Green Cleaning Products, etc. and share how taking a holistic, more responsible approach to everyday life has empowered us to become healthier and happier.

Penny's Pure & Natural will allow us to lead the way and show others what's possible by harnessing what Mother Nature has provided.

Penny operates out of her home office in New Jersey and from wherever Penny and Bill's RV adventures take them.

Penny strives to be somewhat of a Johnny Appleseed, spreading seeds of positivity, essential oil education, and encouragement to those around me.
