# A história do Dódó estraga o ditado do Dudu

d

A Dódó e o Dudu viviam numa bonita praia do norte de Portugal.

Uma tarde, depois de terem brincado no areal, depois de terem nadado nas águas cristalinas e azuladas do grande Oceano, depois de terem conversado com uma sereia encantadora, regressaram a casa.

A Dódó pegou nos dados e começou a jogar sozinha porque a Dudu tinha que fazer o ditado que a mãe lhe ditava. Cansada de brincar sozinha, a Dódó atirou um dado ao Dudu, acertando em cheio no seu dedo. O ditado ficou estragado, com um grande risco. Zangada, a mãe ordenou à menina:

– Vai já fazer mil “d” de dado e de dedo. E tudo muito bem feitinho.

– Desculpe, mãe, isto não volta a acontecer. Eu não sei fazer o “d” - afirmou Dódó.

– Eu ensino-te: uma bolinha redondinha em baixo, uma fita gigante para cima, outra fita agarradinha para baixo e, cá em baixo, arrastas a fitinha pelo chão - explicou o irmão.

A Dódó fez vinte “d” muito lindos e a mãe perdoou-lhe tudo.
