Brand Feature!

Ruffland Kennels

I'm often asked what kind of kennels I prefer, and without a doubt, Ruffland Kennels are my recommendation for almost anyone. These kennels are able to keep almost all kennel escapers contained. The plastic that they are made out of is thicker than most kennels, but is also made to absorb energy if you were to get into a car crash with your pet. The single piece design also makes them easier to clean. Another bonus is the sturdy handles on top that make them much easier to move around and stack. They are a pretty reasonable price for the quality, safety, and longevity they offer.

More detailed information about the design and benefits of these kennels is available on their website, which we have linked to the button below.

Featured Pets Looking for Fur-ever Homes!

Bosco

Bosco is a four year old Plott Hound Mix that is available for adoption through ARRF Animal Rescue. He is a very friendly dog who loves people, and gets along great with cats and kids. He's energetic, intelligent, and very food motivated. Bosco would make a great outdoor activities companion!

If you are interested in adopting Bosco, or want to check out other adoptable pets at ARRF, visit this website: <https://www.adoptapet.com/pet/37898522-roslyn-washington-plott-hound-mix>

Boozy Pup Litter

Collectively called the Boozy Puppies because they are all named after alcohol, these puppies are in need of a permanent home! A DNA test shows they are 49% GSD, 19% Chow Chow and 11% percent chihuahua. Currently there are six puppies left to be adopted (5 females, 1 male), as well as their mother, Silver. Getting these sweet pups adopted is important so that foster homes can be opened up for other animals. So if you know anyone whose looking for a new family member, share the link below!
