

## Cliff Greer

Varsity Defensive Line Coach

Coach Greer is beginning his ninth year on the Naples football staff and his fifth season as coach of the varsity defensive line and college recruiting coordinator. Before coaching at Naples High, Coach Greer had two very successful seasons as a coach for the Naples Gators with an overall record of 26-12. Born and raised in Akron, OH he was a three year starter and varsity letterman, playing guard and outside linebacker for Firestone High School. He graduated from his alma mater in 2003 with honors and a full academic scholarship to The Ohio State University.

Coach Greer came to Naples eight years ago after graduating from The Ohio State University in 2007 with a B.S. in Construction Management, Cum Laude. Following graduation, Coach Greer worked in the private sector as a project engineer for one of the largest private construction firms in the state of Florida. During those four years he was an integral part of many projects all over Southwest Florida including several buildings and civil utility projects for Collier County Schools, FGCU and Lee County Utilities. After four years in the private sector, Coach Greer felt his true calling was to work with kids, so he chose to become an engineering teacher and football coach at Naples High. This year he is teaching Civil Engineering and Architecture, Intro to Engineering Design, and Computer Programming at NHS. He is truly blessed and thankful for Kami, a wonderful wife and mother to their children, and appreciates all of her love and support. The Greer's have two sons CJ (4 years) and Kendrick (3 years).
