ENABLING STABLE IT FOR BUSINESS GROWTH

Quest
Silver Partner

Post-Migration checks

Streamline the finalisation of your Migration of Users and Computers. Completing all the admin tasks ensuring the users are fully operational when they log back on

Completing a smooth Migration process ensures your organisation is working effectively leveraging the parent organisation as well as co-existing with the legacy, keeping business going.

Proven toolset

Developed and proven in the real world, ensuring your User migration and Computer Move activities complete with accuracy.

This tool completes tasks including Skype for Business, Linked Mailboxes, final resting place for User and Computer accounts

Capabilities

Bringing it all together ensuring the users are effective when they first log on to the new domain.

- **Places User and Computers in correct OU** at the end of the migration, so administrators don't have additional tasks

- **Clearly identifying who has been migrated** by updating Active Directory to indicate who has been migrated removing confusion by Service Desk teams

- **Enabling Skype for Business** giving a smooth transition to your organisations Skype for Business

- **Email continues to function** by updating the mailbox to use the new Active Directory account

- **Customisable** to meet your organisations needs eliminating additional administrative effort

- **Minimise Risk** cost and complexity associated with migration and consolidation projects, while ensuring seamless coexistence and easier platform management.

Benefits

- Automates migration completion tasks

- Gets your organisations users working without fuss

- One touch migration

- No additional tasks for administrators to do later in time

- Simple to use for your Quest Migration console administrator
