Quest Collaboration Services to Quest Migration Manager for Exchange conversion

Moving from Quest Collaboration Services to Quest Migration Manager? This is no easy task as there is no upgrade path. This is the only conversion tool on the market.

Converting from one toolset to another while retaining email flow and preserving users Outlook cached credentials is a challenge removed.

This tool will ensure your organisation is ready for Email migration to your target environment

Proven toolset

Developed and proven in the real world, ensuring your conversion is completed smoothly with accuracy ensuring the transition is smooth reducing risk to your organisation

Capabilities

Convert from one toolset to the other easily

- **Preserving Outlook** cached address details removing time wasted by users removing existing email addresses and finding the updated Global Address List information

- **Faster Collaboration** leveraging the Availability service between organisations, getting calendar details in Realtime

- **Future proofing Migration** activities ensuring your organisation is set for future email Migrations

- **Removes Mailboxes** (Stub-objects) created by Quest Collaboration Services in the target environment.

- **Removes Servers** from your infrastructure as Quest Collaboration Services works using 'Server pairs'

- **Minimise Risk** cost and complexity associated with migration and consolidation projects, while ensuring seamless coexistence and easier platform management.

Benefits

- Proven and tested

- Provides a clear path for Email migrations meeting your organisations needs

- Removes additional license costs

- No end user interruption

- Faster collaboration between organisations leveraging the 'Availability Service' for Calendar and meeting information
