Grants By Population

Serving Adults only:	43%
Serving Adults, Families & Youth:	18%
Serving Elderly:	1%
Serving only Families:	2%
Serving only Youth:	36%

FROM THE PRESIDENT:

Financial Tidal Wave Sweeping Towards Non-Profits

We watch the stock market every day to see what Wall Street is doing to our investment portfolio. Solid stocks like General Electric have fallen more than 50 percent in value, American Express, Caterpillar---all down dramatically from historic highs.

Most foundations are invested in Wall Street in various formats; stocks, mutual funds, bonds, hedge funds, and real estate investment trusts. We, at the moment, are down 35 percent in our investment funds and holding our breath that the worst in the world recession may be ending.

Recovery must come in the banks first, the rise of liquidity, earnings and new loans. Housing foreclosures are continuing at a high level and while successful efforts are being made to house the homeless the numbers keep rising as people lose their jobs and their homes. This has yet to abate and there may be more downward trends in pricey real estate.

Frightening for the work force is that many lost jobs will never return in their present forms. The U.S. auto industry is on a downhill slope and as car dealers are forced to close by manufacturer's cancelation of product lines and lack of sales, literally thousands of jobs are being lost in small and large communities across America. The Ford, Chevy and Chrysler dealerships have stood the test of time and are the rock rib businesses of main street U.S.A.

The tidal wave for non-profits has not arrived yet; understand that foundations grant at least five percent of the prior year's corpus figured on a monthly basis for grant payouts. As the foundation's assets dropped in 2008 it impacts giving in 2009 and beyond. A late economic recovery this year could improve the foundation assets for 2010, but granting is based upon the prior year's asset base.

What this means for us is fewer dollars to grant and we have to be more selective in our granting procedures. It drives us back to our mission of attempting to help the poor and afflicted people in our society here in Colorado. We have always been very interested in a wide variety of needs ranging from rural baseball fields to some marching band trips. Some of these grants may have to wait a few years to return to the radar screen.

What it means to you is that you are going to have to figure a way to survive until we reach better times. Operating expenses will have to be cut, layoffs occur, and projects curtailed, certainly capital construction projects will be few and far between. If the project has not been built during these good years, or currently funded, it will have to be delayed for an indefinite time until the economy improves.

We know that foundations do not always like to buy tickets and tables to fundraising events but in this time of need more volunteerism needs to be sought and supported. Foundations should lead the way in encouraging more volunteerism and private funding of charitable events. Nothing is better than a successful fundraiser by volunteers where the general public attends the event and gives thousands of dollars to their favorite non-profits. These events happen continually across Colorado and the generosity and support from citizens is impressive. Americans are indeed the most generous people on the planet.

Look for ways to survive; maybe you will have to merge with another group, down-size to a smaller building or staff. Many of you give free services to the young, sick and elderly. We hope that the lifesaving services will continue, some of the other services may have to be curtailed for the time being. Saving lives should be our utmost priority. (Cont-d)

FROM THE PRESIDENT: (CONT-D)

Foundations will be looking for results in your success stories about helping others. It is important to tell your story, track your successes, and always attempt to do more with less.

We are optimistic about the future, America *will* recover, and there will be new jobs and more opportunities. From hardships come new strengths and daily crisis can bring new concepts, thoughts and ideas. Do not give up easily.

Continue the good fight.

Robert F. Sweeney

Unrestricted	\$37,786,932
Total Liabilities and Net Assets	\$37,797,482

The Foundation's financial statements are audited by Scullion Strasheim & Company, CPA.

ABOUT OUR FOUNDER:

Kenneth King was born in Nederland, Texas on August 12, 1901. His father died when Kenneth was eight years old. His early childhood days revolved around working with his widowed mother at a family-run boarding house, both in Texas and later in Denver. In 1916, he and his mother and two brothers moved to Denver. Kenneth graduated from East High School in 1918. Determined to get a good education, he enrolled at Northwestern University in Evanston, Illinois. He worked his way through four

years of college, driving a taxi cab in Chicago, waiting tables at his fraternity house, and selling men's clothing in the Chicago Loop.

In 1929 Kenneth King founded Columbia Savings and Loan Association in Denver, Colorado with offices in Denver, Fort Collins, Colorado Springs, Pueblo, and Littleton with field staff serving all of Colorado. In 1958, Kenneth with his brother, Harold Taft King, built the Petroleum Building at Sixteenth and Broadway in downtown Denver.

In 1962 Columbia was sold to MCA, Inc. Kenneth remained on the Board until 1979, completing 50 years with Columbia Savings.

Kenneth King continued his work as an active philanthropist, supporting such organizations as Goodwill Industries, the Leukemia Society, Easter Seal Society, and countless church, civic and social services organizations.

While active with Columbia Savings, he hired a number of disabled employees and in 1963 was named Colorado Employer of the Year by then Governor John Love, and later received the Distinguished Service Award from President Lyndon Johnson, who cited him for "encouraging and promoting the employment of handicapped people."

He was a life member of Sigma Chi Fraternity. The Omega Chapter House at Northwestern University bears his name.

During his presidency of the Lions Club of Denver, he formed the Denver Lions Foundation, recognizing the need for Foundations to raise and distribute funds to worthwhile causes, such as the Lions' blind and hearing programs.

In 1990, Kenneth King founded the Kenneth King Foundation and became the organization's first president. Upon his death on April 25, 1992, Stevens Park Kinney II became the Foundation's second president and the Board of Directors selected by Kenneth King became active.

On November 30, 1993, President Kinney succumbed to a serious illness, and the five-member board elected Vice President Robert F. Sweeney as president.

The Board meets quarterly and at special meetings to review business operations and review grant proposals.

Kenneth King's motto throughout his life - and strongly carried out by his Foundation is:

"To do the common thing in an uncommon way"

2008 GRANT RECIPIENTS:
