*Our goal is to grow green hearts and
minds in children.*

What IS Forest Fusion Package?

Forest School Leader led programme

- A flexible package that supports settings & schools to set up a nature based curriculum.
- A team building experience.
- The programme aims to facilitate practitioners in maximising child-led learning opportunities in natural surroundings.
- Forest Fusion enables practitioners & teachers to experience a forest school session from their own perspective to feel the impact upon their own well-being & confidence, to experience risk & challenge, to develop positive relationships within the team & beyond & to develop a connection & love for nature that transforms practice & teaching.
- Informs teams how to incorporate nature based learning in meaningful contexts relevant to the National curriculum in creative & innovative style.
- An experience similar to that a child would experience in a forest school programme - Practitioners should develop a sense of well-being, confidence, freedom, feel motivated to learn, share experiences etc.

Options

The full package includes

Development plan — design/discussion/staff meeting/presentations to parents, governors, & teams/day training for staff team/observation Session & feedback /planning session/observation session at our forest school/consultancy.

The package can be accessed on a bespoke basis where options may be omitted/ increased or tailored to specific need e.g. Forest School leader takes a session with lead teacher/practitioner for project at setting/ school.

What is the Outdoor Provision Practice Pathway?.

A Learning Through Landscapes Accredited Practitioner supported package offering:

Quotes from Forest Fusion training

“Great being able to experience forest school first hand & all together as a team”

“I am going to make more of an effort to get children outside ACROSS the curriculum in light of this training”

“What worked best for me was having a short presentation with information to take away but also the hands on cooking and craft items. It was a great training day”

“I now realise how the outdoor environment can be used effectively to provide learning opportunities”

“I will tell more stories outside & use the grab bag ideas that will be particularly relevant to the programme I deliver at school”

“I think that the impact of the training will enable me to enhance the children’s learning journey with exciting exploration & investigative techniques”

“The training has given us direction to develop this provision in school”

“I loved being outside & the enthusiasm of Sue. It worked well to have some theory followed by practical”
