

Understanding Autism

This introductory session to Autism aims to improve your understanding of Autism, providing you with a better knowledge of the strengths and barriers to learning.

Objectives

- To be able to define Autism
- To identify areas of difficulty associated with autism
- To look at differences in ways children with autism think and understand the world
- To look at learning strengths and barriers
- An introduction to useful strategies

Delivered by

Emma Payn – Early Support Co-ordinator/Outreach Worker
Natalie Ellison – TOP Worker

Refreshments are provided.
