RANCH HORSE IN HAND

Entries will line up at the judges direction. To be judged 60% on correctness, balance, way of moving and conformation suitable for a working ranch type horse and 40% on manners & disposition. **Show committees may ask for these classes to be combined depending on entries.**

RANCH HORSE PLEASURE CLASS

The Ranch Horse Pleasure Class measures the ability of the horse to be a pleasure to ride while being used as a means of conveyance from one ranch task to another while riding with a group of horses or individually. The horse should be well-broke, relaxed, quiet, soft, and cadenced at all gaits. The horse should be ridden on a relatively loose rein with light contact and without requiring undue restraint. The horse should be responsive to the rider and make timely transitions in a smooth and correct manner. The horse should be soft in the bridle and yield to contact. The ideal stock horse should have a natural, level headed carriage at each gait.

RANCH RIDING

The purpose of the ranch riding class is to measure the ability of the horse to be a pleasure to ride while being used as a means of conveyance from performing one ranch task to another. The horse should reflect the versatility, attitude and movement of a working ranch horse riding outside the confines of an arena. The horse should be well-trained, relaxed, quiet, soft and cadenced at all gaits. The ideal ranch horse will travel with forward movement and demonstrate an obvious lengthening of stride at extended gaits. The horse can be ridden with light contact or on a relatively loose rein without requiring undue restraint, but not shown on a full drape of reins. The overall manners and responsiveness of the ranch riding horse to make timely transitions in a smooth and correct manner, as well as the quality of the movement are of primary considerations. The ideal ranch riding horse should have a natural head carriage at each gait.

RANCH TRAIL

The Ranch Trail Class, as the name implies, tests the horse's ability to cope with situations encountered in everyday riding. The horse is ridden through a pattern of obstacles which should nearly approximate those found during the course of everyday work. The horse/rider team is judged on the correctness, efficiency, and pattern accuracy with which the obstacles are negotiated and the attitude and mannerisms exhibited by the horse. Judging emphasis is on identifying the well-broke, responsive, well-mannered horse which can correctly navigate and negotiate the course.

The trail course will include no less than six obstacles. Care must be exercised to avoid setting up any obstacles that may be hazardous to the horse or rider. When setting courses, management will be mindful that the idea is not to trap a horse/rider team or eliminate it by making an obstacle too difficult. All

courses and obstacles are to be constructed with safety in mind so as to reduce the risk for accidents. Show committees have the option of setting up the trail course to best fit the arena conditions. The show committee, either through a pilot run or estimation, shall select a course that has a continuous, positive flow that can be negotiated in four minutes or less. The course must be designed using the ECRRA acceptable obstacles and maneuvers.

RANCH ROUND UP

This is a timed event. This class is to prove the agility, versatility and the quickness of a ranch horse when called upon. Exhibitors will perform a specific pattern designed by ECRRA. The pattern must be run correctly, the fastest time wins.

Penalties: Knock down of each obstacle will be a 5 second penalty added to the time, performing the pattern incorrectly will result in a **no time** and will not place.

Walk Trot entries, loping more than 3 strides in a pattern will result in a NO TIME and will not place.

(Any rules not covered in the ECRRA rule book will refer to AQHA or SHOT rules)

JUDGING GUIDELINES (revised January 1, 2018)

GAITS-RANCH RIDING / RANCH PLEASURE. In all gaits, movement of the ranch riding horse should simulate a horse needing to cover long distances, softly and quietly, like that of a working ranch horse. The following terminology shall apply:

1 Walk-The walk is a natural, flat footed, four-beat gait. The gait is rhythmic and ground-covering. As in all gaits, the horse should display a level, or slightly above level topline with a bright, attentive expression.

2 Trot- The trot is a natural two-beat gait demonstrating more forward motion than the western jog.

3 Extended Trot- The extended trot is an obvious lengthening of the stride with a definite increase in pace. The horse should be moving in a manner as if it were covering a large area on a ranch with an above level top line.

4 Lope- The lope is a three-beat gait. The lope should be relaxed and smooth with a natural, forward moving stride.

5 Extended Lope- The extended lope is not a run or a race but should be an obvious lengthening of the stride, demonstrating a forward, working speed. The horse should display an above level top line with a bright, attentive expression.

The overall cadence and performance of the gaits should be as those described above. With an emphasis on forward movement, free-flowing, and ground covering for all gaits. Transitions should be performed where designated, with smoothness and responsiveness.

Posting at the extended trot is acceptable.

Touching or holding the saddle horn is acceptable.

- 1 No hoof polish.
2. No braided or banded manes/tails or tail extensions.
3. Trimming inside ears is discouraged.
4. Trimming bridle path is allowed, also trimming of fetlocks or excessive (long) facial hair.
5. Equipment with silver should not count over a good working outfit. Excessive silver on bridles and saddles is discouraged.

Class Requirements: RANCH RIDING (pattern class)

Each horse will work a pattern individually, performing the required gait maneuvers and a minimum of three optional maneuvers. Horses will be scored on the basis of 0 to 100, with 70 denoting an average performance. Each maneuver will receive a score that should be added or subtracted from 70 and is subject to a penalty that should be subtracted. Each maneuver will be scored on the following basis, ranging from plus 1 1/2 to minus 1 1/2.: -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, +1/2 good, + 1 very good, + 1 1/2 excellent. No specific penalties will be incurred for nicks/hits on logs or over or under spins but deduction may be made in maneuver score.

RANCH TRAIL

The Ranch Trail Class, as the name implies, tests the horse's ability to cope with situations encountered in everyday riding. The horse is ridden through a pattern of obstacles which should nearly approximate those found during the course of everyday work. The horse/rider team is judged on the correctness, efficiency, and pattern accuracy with which the obstacles are negotiated and the attitude and mannerisms exhibited by the horse. The trail course will include no less than six obstacles. Care must be exercised to avoid setting up any obstacles that may be hazardous to the horse or rider. When setting courses, management will be mindful that the idea is not to trap a horse/rider team or eliminate it by making an obstacle too difficult. All courses and obstacles are to be constructed with safety in mind so as to reduce the risk for accidents. Show committees have the option of setting up the trail course to best fit the arena conditions. The show committee, either through a pilot run or estimation, shall select a course that has a continuous, positive flow that can be negotiated in four minutes or less. The course must be designed using the ECRRA acceptable obstacles and maneuvers.

RANCH TRAIL CLASSES Credits and Penalties.

All runs begin upon entering the pen; any infractions (such as two hands on the reins, using either hand to instill fear or praise, etc.) are subject to penalty at that time. The rider has the option of eliminating any obstacle however this will result in being "Off Pattern" and the horse/rider team may not place above others who have completed the pattern correctly. A Judge may ask a horse to pass on an obstacle after three refusals or at any time for safety concerns. Credit is given to horse/rider teams who negotiate the obstacles correctly and efficiently. Horses should receive credit for showing attentiveness to obstacles and ability to pick through the course when the obstacles warrant it while willingly responding to riders' cues on more difficult obstacles. Quality of movement and cadence should be considered part of the maneuver score for the obstacle. Each maneuver will be scored on the following basis, ranging from plus 1 1/2 to minus 1 1/2.: -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, +1/2 good, + 1 very good, + 1 1/2 excellent.
