

As we are all trying to do our part to reach California's 75% waste reduction goal by 2020, our schools can play a huge role in this effort. Not only do our schools have the ability to rise to this occasion, but what better way to educate than to engage students first hand in environmental awareness.

At Recycle for Change we can provide the support needed for an easy to implement **Textile Recycling Program** for your school. The only thing required is a willingness to protect the environment.

What we can provide through our partnership:

- We deliver a free standing box to recycle clothes, shoes & miscellaneous items
- We maintain and service the box regularly.
- We partner with you to create a program as simple or as creative as you choose.
- Let's brainstorm together and find creative ways that our kids can become "fashionably" green.

Recycle for Change

Green Schools Textile Recycling Initiative It's in Fashion to Green Your School.

If your school already has a designated Green Team, Recycling or Environmental Club, we would love to partner with them. This program can be tailored integrate with the criteria and logistics of every individual school.

Make Recycle for Change a part of your school's green initiative. Together, we can make your school "fashionably" green. We're looking forward to working with you.
