

# A HEALER'S ODYSSEY

**DR. SHAYE** was a practicing Doctor of Chiropractic for 20 years and has since dedicated his life to full-time service to God demonstrating an unusual gift of healing.

**HIS WORKSHOP**, “*A HEALER’S ODYSSEY*” is the story of his own spiritual transformation from atheist to spiritual healer. “Although I call myself a healer, this is a misnomer, as a healer is a conduit for Spirit to work through,” Dr. Shaye explains, giving all credit to God for each and every miracle he has witnessed. In the workshop, volunteers are used to demonstrate this healing gift while chronologically showing it’s unfolding. Some participants have seen a golden stream of light radiating from Dr. Shaye’s hands as he works.

**DR. SHAYE WILL SHARE** how God awakened him through dreams and inner guidance to the awareness of his “gift” from 1973 to the present. Numerous miraculous cases will be presented. Known for his down-to-earth style, his experience and breadth of medical and scientific knowledge engage even the most skeptical audiences. He has presented this workshop overseas and for over 250 Unity churches.

**WELLNESS LECTURE**—“*IF YOU WANT TO KNOW ABOUT HEALTH, DON’T ASK YOUR DOCTOR!*” In the wellness lecture, he will inform individuals how to take charge of their well-being: Spirit, Mind, & Body with the part dreams play in each.
