## GENERAL INFORMATION ON BEING A SKIPPER

- Keep to the center of the canal and don't cut corners.
- You are better stopping short, than panicking in reverse to stop.
- Keep to the speed limits 4mph or walking pace, slow down for fishermen and moored boats.
- Pass oncoming boats to the right hand side.
- No persons allowed on the roof of the boat.
- No smoking on board.
- Passengers and crew do not put arms and legs outside the boat.
- Keep a note of bridge and lock numbers for emergency contact location details
- Do not let passengers brush hand through overhanging trees etc as fishing hooks might be in them.
- Use your horn for Blind corners (one long blast)
- Anyone falls in the canal cut the engine immediately and throw a life ring, then, ask them to see if they can walk out.
- When in a lock (going down) keep the boat to the center and away from the sill.
- When in a lock (going up) open the ground paddles first till the lock chamber is half full, then open the gate paddles.
- When leaving a lock, all paddles must be down and all gates closed.

**REMEMBER TAKE YOUR TIME AND DON'T RUSH, DON'T LEAP ON TO THE BOAT, JUST STEP ON, IF YOU CANT STEP ON THEN WALK DOWN THE CANAL AND TRY AGAIN.**
