All practitioners and hospitals who are part of our network must meet credentialing requirements. We review credentialing information provided by practitioners and hospitals before they become part of our network. Every three years, our providers must supply updated information which is reviewed again. We verify the information that is supplied, such as where a provider received training and if the provider has a current license to practice. We instruct providers to notify us with updates at any time. If you have any questions about your participating providers, please feel free to contact our Member Services or the provider directly.
