

“LEAVE IT TO A BOSS!”

In-Ground Liners

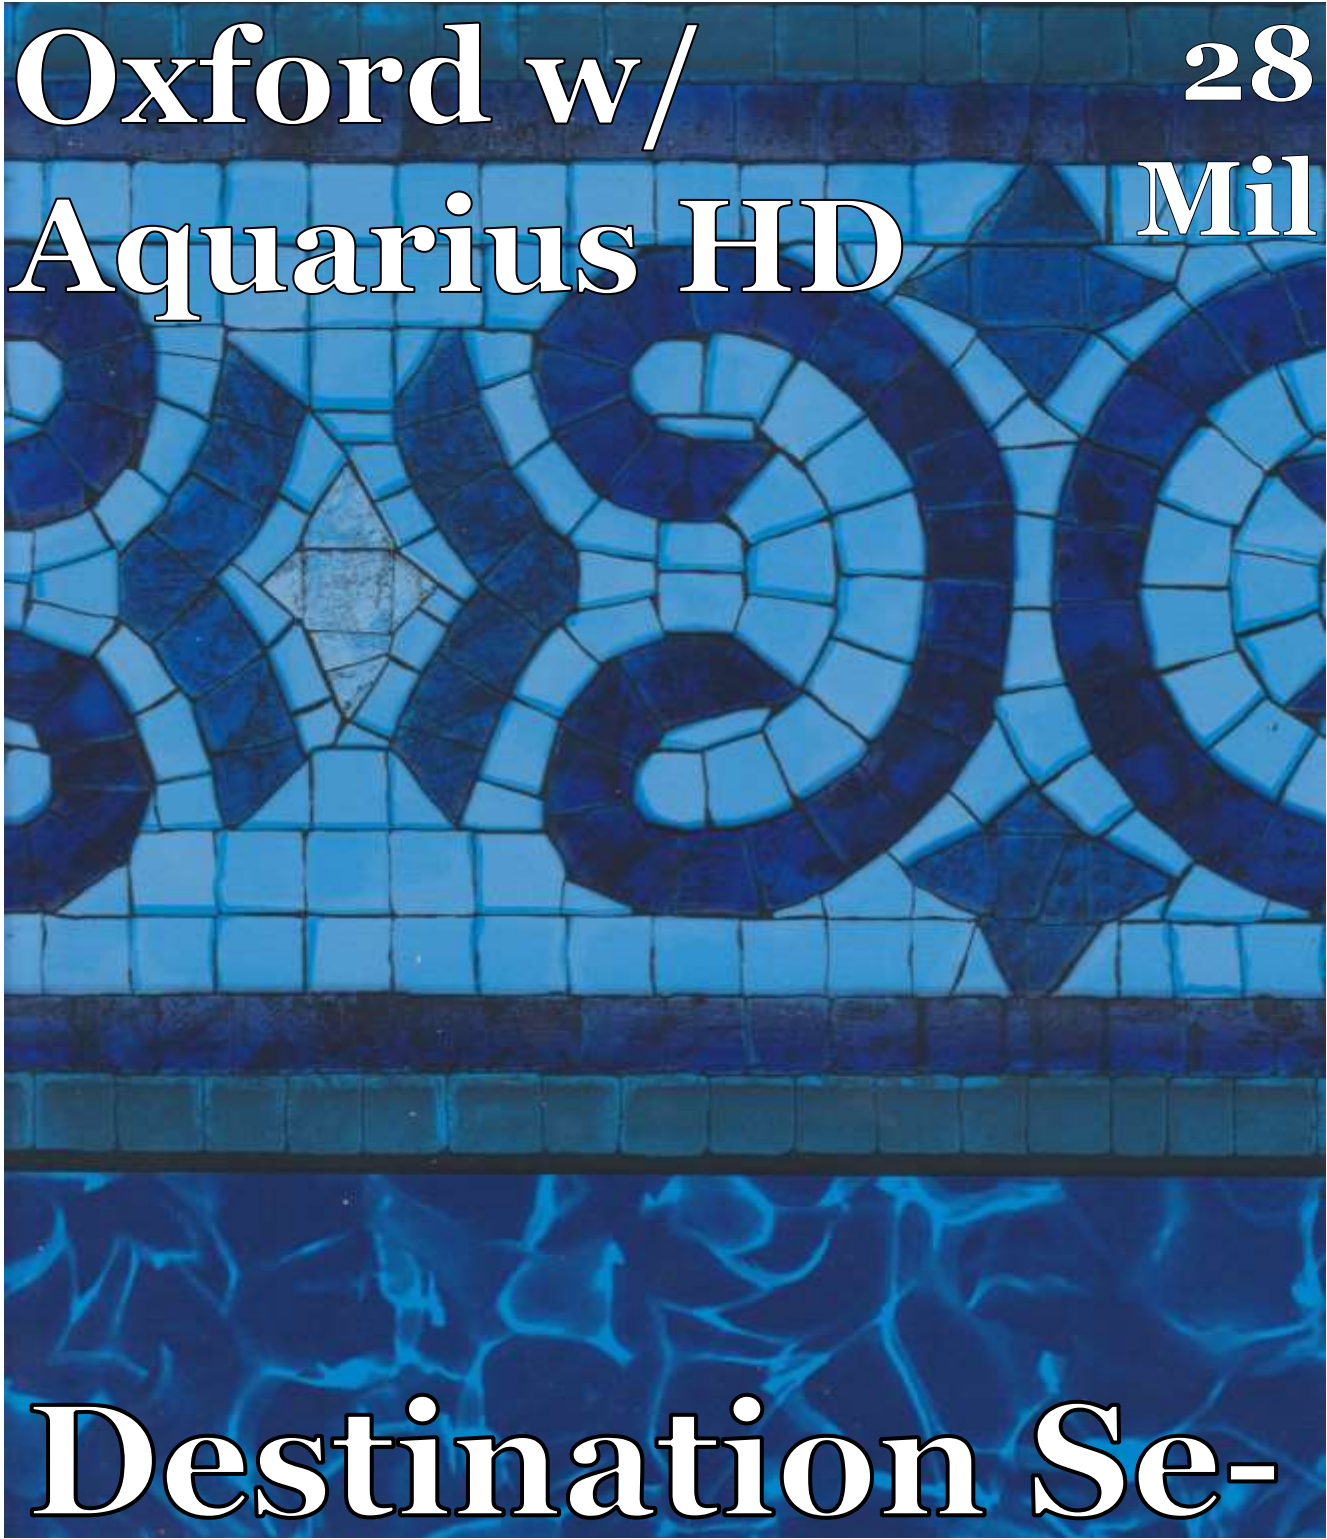

(440)539-8211

Pool Boss LLC

We only offer the best liners available! These GLI liners are UV, and chemical resilient. Providing extra protection from chemical and sun damage. At 20 or 28 mil thick they are highly durable and tend not to tear under the enormous stress throughout the years. They may seem a little pricy compared to other liners on the market, but the high end vinyl, chemical resistant, and UV protected GLI liners are the way to go!

Sandstone 8 Mil

The image displays a detailed mosaic pattern. The primary design consists of large, irregularly shaped stones in earthy tones of brown, tan, and blue, arranged in a repeating geometric pattern. The stones are set in a dark, recessed mortar. The pattern is symmetrical and repeats across the entire surface. The text "Savannah w/ 20/2 Sandstone 8 Mil" is overlaid on the top left, and "Destination Se-" is overlaid on the bottom left.

The background of the entire image is a close-up photograph of a wall covered in blue mosaic tiles. The tiles are in various shades of blue, from deep navy to a lighter, almost turquoise hue. They are irregular in shape, with some being rectangular and others being curved or broken into smaller pieces. The tiles are set in a light-colored, textured mortar. The lighting creates soft shadows, giving the tiles a three-dimensional appearance.
