

Phase two of the National Johnes Programme (2019) has been recently announced by Animal Health Ireland. In our continued effort to provide quality 'Diagnostic services' and 'Vet led Knowledge transfer' to local Dairy Farmers, 'Animal Health Laboratories' are pleased to invite you to attend our seminar on;

“Johne’s Disease – Phase 2”

Wednesday 16.01.19 – Friday 18.01.19

(Venues will be announced shortly – in the West Cork Area)

Please use our Course Booking Form to book as places are limited or alternatively contact alynch@ahli.ie

Speaker: Peter Orpin MVB MRCVS

A prominent and respected speaker, Peter Orpin is a Veterinary surgeon with 35 years' experience in UK practice who has become one of the Worlds 'Key opinion leaders' on Johne's control strategies.

His experience has been used globally to speak to Vets, Farmers, Dairy Industry representatives and Governments shaping policy and helping reducing Johne's at farm level. Peter's presenting skills are not to be missed, promising full engagement from attendees.

Peter will outline the reasons why farmers need to act now and not wait.

The focus of this seminar will be;

- Increasing awareness of the current National Johnes Programme
 - Why ignoring Johnes disease is not an option
 - The costs of ignoring Johnes Disease
 - Why veterinary interaction is of utmost importance
 - Vet / client interaction on the night
 - The current scheme & funding available
 - Discussion and workshop

The seminar will be attended by Coop representatives, local vets and laboratory personnel.
