LOCATION:

Cowtown Livestock, 1.6 km East of Maple Creek, SK
Online Viewing and Bidding at DLMS.ca

TERMS:

Please register for a buyer number at the office prior to purchasing. All bulls sell under the Terms & Conditions of Cowtown Livestock Exchange. Terms of sale are cash or cheque payable to Cowtown Livestock. No bulls will be released without satisfactory settlement. When making settlement for your purchases, please leave specific instructions for transferring of registration certificates. Any errors discovered in this catalog will be corrected from the auction stand and will take precedence over printed material contained in this catalogue. Each animal becomes the responsibility of the purchaser as soon as sold.

BULL EVALUATION / HEALTH:

All bulls will have a complete satisfactory fertility exam and semen test done by the Maple Creek Vet Clinic prior to sale. Bulls will not be sold on a 'deferred' result. For prevention of footrot, the bulls have received their first vaccination and will require a booster. Bulls have been vaccinated: Fermicon 7/Somnugen, Inforce 3 and One Shot and boosted Fermicon 7/Somnugen, Pyramid FP 5/Presponse and pesticide poured.

In the event that your bull is a non-satisfactory breeder please notify us immediately. He will be replaced with a bull of equal value or a credit will be given towards the purchase of another Delorme bull. We will not provide replacement or credit for physical injury or mismanagement.

ON OFFER:

54 Registered Black Angus Bulls

Current weights and scrotal measurements will be available prior to sale.

VIEWING THE BULLS:

The bulls are available for your appraisal at the ranch until Friday, March 31st. We welcome your visit! They will be moved to the Cowtown yards where they can be seen from Saturday April 1st until sale time.

INSURANCE:

Insurance will be available sale day, on location from a Blythman Agency's representative. (306) 662-2604

\$100 OFF YOUR PURCHASE:

If you take your bull home the day of the sale upon satisfactory settlement of payment. If you are not ready for them we will gladly take your bull(s) back to our ranch for you but they have to be insured. After May 1st we will charge \$3.00/day. We will be in touch to arrange pickup or delivery arrangements prior to May 31st.

ONLINE BIDDING AND VIEWING:

DLMS Online Bidders:
Please sign up and confirm bidder approval prior to the sale.

Internet Bidding Available

DLMS
www.dlms.ca

For more information Call DLMS Reps:
Mark Shologan 780.699.5082

PHONE BIDS & SIGHT UNSEEN PROGRAM:

If you are unable to attend the sale but are interested in bulls, give us a call and we will go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

SEMEN COLLECTION:

We reserve the right to collect semen on any bull in the sale for in-herd use only. Any questions please contact Don or Darby.

SALE ACCOMODATIONS:

Cobble Creek Lodge: 306-662-5100

Willowbend Motel: 306-662-2555

Cypress Park Resort Inn: 306-662-4477

Maple Creek Motor Inn: 306-662-4431

Welcome

We are excited to welcome you to the 2023 bull sale. We heartily welcome our dedicated repeat customers as well as those that may be attending for their first time. These bulls selling are six decades in the making. Sixty years of private treaty sales, group consignor sales, and for the past nineteen years our Your Choice bull sale.

This past summer we had the opportunity to meet and visit with many of you during Saskatchewan Angus Tour. It was a pleasure to co-host and enjoy the good cattle viewed, friendships; new and renewed, during the event in our corner of the world.

The calves are raised on mothers milk, grass, and south-west Saskatchewan scenery. No creep and they have been raised through yet another drought year – our sixth! They are a testament to our females that they indeed are able to go out to work and raise a calf in tough conditions. The bulls were weaned in early October. They weaned great and did well until we hit a long, long spell of -30 wind chill or worse. The yearling weights were a bit off because of that but the boys rebounded from that little setback. We hope you see the bulls as we do – the type of angus bulls that will get the job done in whatever field they are set loose in. We thrive on producing functional cattle whether they are for your first calf heifers or an Angus stud for the cow herd you've dedicated much to.

- Page 34 showcases the Sire of the Dams
- Page 35 and 36 presents a quick history of our 60th Anniversary as breeders
- Page 39 private treaty offering of replacement heifers

- Page 40 is a tag # index (heifer bulls highlighted).
- The Sale Order, Weights and SC will be available shortly before sale time on our web site
- DLMS will provide online viewing and bidding for this year's sale
- Bulls will be semen-tested/scrotal measured and ready for your immediate use
- Bulls sell 'live in the ring'

Thank You ~ Mark Forsyth, Ty Schwann, Will Banford, and Shayla Duncan, for helping our family get the bulls cleaned up, pictured and videoed. We also appreciate and thank Tiffany of 14 West Creations for her help in making sure our catalogue is properly prepared for printing.

We invite and recommend everyone to come through and tour the bulls ahead of the sale. We understand that getting away is not always easy or even possible sometimes. For your convenience, our websites of www.DelormeRanch.ca and www.BoundaryRanch.ca will showcase the Bulls, Dams, Sires and Siblings. While we hope our pictures, videos and footnotes give an extra 'in person' feel, we do look forward to hearing from you or scheduling a visit to see the cattle 'in the flesh'. *Inquiries and visitors are always welcome!*

We look forward to seeing you on April 3rd where we will be offering a set of bulls that will garner your respect. Thank you in advance for your consideration of our 2023 sale offering. We wish you the best of luck in securing your selection on sale day. Please join us for a pre-sale lunch and post sale hospitality where you can mingle with like minded producers.

Sincerely the Delorme Family

South Shadow Rain Man 2M
Jay EN Dee Joyce 32G

Big long framed, very docile fella. Big scrotal. If you like some growth in your calves he will fit the bill, weaned off at 898 lbs on Oct 3 adjusted to 762. Twin to another bull. Big volume, deep bodied cow that is well balanced. Sons to: Wrangler Ridge Ranch, Dave Hanson, Justin Hassett, one bull in herd, one daughter in herd and one daughter to Arndt Ent.

Our top gaining bull on feed with a 365 day index of 130. Long, deep and smooth, strong topped and impressive when you get behind, also very sound structured and has an excellent foot. His Dam is big bodied, a high producer with strong maternal traits, an awesome udder and added performance. 113A sons to WCR Angus, Justin Hassett, Howard Bock, with one of two daughters bringing Shooter 257K (pg 20) for your appraisal.

Comes from a cow that people notice when they tour, and for good reason. Ideal in phenotype and genotype, designated elite/premier dam since 2015, average ratio 105, also attests to her longevity. Not much I could tell you that I would change about this cow. If you're looking for replacement females and males that have the ability to put some money in your pocket, this guy should do it. Long, smooth, and balanced in his profile, with a square frame to hold it. High selling bull in 2012 to Anhorn Angus, and other sons to Cody and Nora Shock, Cypress Farming, 40 Mile Grazing, Casey Gordon, and one son and 4 daughters retained.

This bull is long made, deep middle, lots of guts. He is quiet, big boned and with a big foot and a large scrotal. Has growth, do-ability, and performance, with an actual YW of 960 lbs. Our top indexing bull, with no creep and an actual YW of 1285 lbs. His Dam 113D is a Density daughter who had a lot of friends at the angus tour this summer. She has exceptional length, thickness and depth of body. She has perfect leg structure and foot and a bang on of an udder. Just a note; some of these Innovation calves may have bigger birth weights, but when you study the skeletal length, which justifies the few more pounds at birth, that extra rib aligns with heavier weaning weights. 205 Index: 115, 365 Index: 129, Life: 120 Top EPDs: 25% YW, 20% MILK

Recommended for heifers. Low birth weight, deep ribbed, thick topped, clean fronted, masculine and very docile. With his good growth #s, his progeny shall fit in with the drafts from your main cow herd. Dam 161H is feminine tank, first calf heifer with a good udder. 161H's sister has a feature bull in Innovation 114K (pg 10). She also has another first calving (Know How) sister in 2023. 205 Index: 110, 365 Index: 108, Life: 109

Recommended for heifers. Masculine made with a balanced, thick topped, deep-made frame, and tremendous hair.

Performance plus: 69 lb birth weight with a -0.6 BW EPD and a 205 Index of 108 and a 365 Day Index of 121, these Justified calves are high calibre, calving-ease studs for your first calf heifers and can stay with you and cover your cow herd next. Dam 179H, is a very feminine angular female representing two of our walking sires that left awesome udders.

Recommended for heifers. Stout, easy fleshing, and wide hiped, but still smooth shouldered. Big footed, smaller framed, with that traditional angus head. 29K attracted a lot of attention by visitors this summer. Low birth weight of 74 lbs and a gestation of only 277 days but a WW Ratio of 106, so this fella has some performance. Dam and grandam are heavy milking and moderate framed. Grandam has a son in the sale 41K (pg 12).

Recommended for heifers. Smaller framed bull with a lot of thickness from front to back, in a smooth, hairy, easy fleshing, package. Cow is also built on the same ideal phenotype that she consistently has passed on to her progeny. She's had sons sell to Justin Hassett, with two to John Watson.

SOUTH SHADOW SUCCESS 161K

SSA 161K 2255463 01/25/2022

DAM: Ruby 120E

MGD: Ruby 103A

MGGD: Ruby 29T

Recommended for heifers. From the way this very docile guy is built, his BW and MCE trait EPDs and a 78 pound birth weight one would have to say he is a heifer bull candidate. His clean front, smooth muscle and long body look the part. He stands on a solid structure and foot with a strong top line. Dam 120E is a moderate framed, feminine, excellent uddered, Wrath 9C daughter. GD 103A delivered her ninth calf in January and GGD, respectfully had eleven calves; four being producing daughters. 365 Index: 110

SOUTH SHADOW REIGN 94K

SSA 94K 2290805 01/16/2022

Recommended for heifers. We have used Reign with great success on 1st calvers. This bull is a very complete, well balanced Reign son. Deep-bodied, long, has a small skull while obtaining impressive 205 and 365 day ratios. Performance with a look and presence that is hard to not like. Dam 167H is on the upper end of moderately framed with good udder structure and she is backed by the maternal Eileen cow family. The Thunder / Upward combination of the Dam's bottom side ensures calving ease while not giving up growth.

Long, hairy, and big scrotal. Has very good feet and legs. His moderate sized Dam is feminine, angular and easy-keeping with a well put together udder. GD, 74A has achieved elite status with an average ratio of 109 on eight calves. She had a stout Shooter calf but January 17th last year must have been a tough one... he and another stout Shooter are earless; way to much bull to cull, they will get put to work here. ET calf. A moderate framed bull that is sound footed, wide based, and square hipped. 75K is a power bull that is thick made with an excellent top line and muscle shape. Dam is a flawless Timberwolf daughter that Darby and Sarah purchased as a high seller out the Forsyth Ranch dispersal. She is a long, well-balanced cow, with as close to perfect udder and feet as you can get for a 12 year old cow. Flush sisters will all be going back into their herd along with two natural born females. Her only other son since purchase went to Tony and Carolyn Leismeister.

How To Read EPDs and Performance Data

EPD's are a measure of the expected differences in performance of a sire's/dam's progeny when compared to the average progeny of all sires/dams evaluated within the same breed. This prediction is based on actual performance, progeny performance and relatives' performance.

- EPDs can be used to compare bulls/cows from different herds.
- EPDs cannot be used to compare bulls/cows of different breeds.
- EPDs allow breeders to estimate a young animal's breeding value and that animal's value as a parent
- EPDs allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management
- EPDs are the best tool available to compare animals between herds, countries and year of birth
- EPDs help breeders make informed decisions regarding breeding stock selection by evaluating numerous traits, such as growth related traits (BW, WW, YW, Milk)

- **CALVING EASE DIRECT (CE) EPD:** The average difference in ease with which a sire's calves will be born when he is bred to first calf heifers.
- **BIRTH WEIGHT (BW):** The birth weights of a bull's/cow's progeny when compared to the breed average, in pounds. Negative values indicate lighter BW while positive numbers indicate heavier.
- **WEANING WEIGHT (WW):** The adjusted weaning weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **YEARLING WEIGHT (YW):** The adjusted yearling weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **MATERNAL CALVING EASE (MCE):** Is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

- **MILK:** A measure of the amount of pre-weaning performance gained by calves which can be attributed to the milking ability of a bull's/cow's daughters. The EPD is expressed in pounds of calf.

The Performance Information

As a further means to improve our herd we have submitted animal data to the Canadian Angus Performance, CAP program since it's initiation in the 70's.

- The test weights are for performance comparison WITHIN OUR HERD only. Consider and keep in mind that feed management differs with each breeder.

AOD	GEST	Actual BW	ADJ. 205	ADJ. 365	Oct 3 WW	Jan 9 YW	98 Day ADG
5	280	88	666	1111	800	1094	3.0

- **AOD:** Age of Dam at calf's birthdate
- **Actual BW:** Birth weight as actually weighed and recorded
- **ADJ 205:** Adjusted 205 Day [Weaning] Weight. Actual Weaning weights adjusted to 205 days of age - Dam's age considered in formula
- **ADJ 365:** Adjusted 365 Day [Yearling] Weight. Post-Weaning Average Daily Gain x 160 + Adjusted Weaning Weight
- **Oct 3 WW:** Date calves were weaned and weighed in fall of 2022
- **Jan 9 YW:** 2023 Date calves were weighed for yearling weight data submission
- **ADG:** Average daily gain from October 3, 2022 to January 9, 2023

Average EPDs for all Black Calves born in 2022

CE	BW	WW	YW	MCE	MILK
+3.5	+2.0	+52	+92	+6.7	+23

National Cattle Evaluations [EPDs] are conducted monthly. EPDs represented are from February 2023

The Elite/Premier Program

Canadian Angus Elite Cow: has a minimum of five calves, four of which must be registered, to determine her regularity of calving and ability to consistently produce calves with a superior weaning weight year after year, display early puberty, breeding and early calving, followed by regularity of calving and high performance offspring.

Canadian Elite Cow Criteria

1. The cow must be enrolled in the Canadian Angus Performance Program.
2. The cow must have a calf with a 205-day weight recorded within the past 18 months.
3. The cow must have her first calf within 1000 days of her date of birth
4. The cow must maintain a regular calving interval, calving within 395 days consecutively
5. The cow must have four consecutive natural born calves that are registered and have a weaning weight ratio that averages over 105
6. The cow's calf must be in a contemporary group with no less than 10 herd mates to determine the weaning weight ratio
7. Once a cow is designated an Elite Cow, she is always an Elite Cow, however she will not be published in a year where she does not meet the above criteria

Premier Dam Criteria

As in 1 to 4 above

5. The cow must have four consecutive natural born calves that are registered
6. The cow's four calves must have Weaning Weight EPDs that are above breed average and have an accuracy of over 25%
7. The cow must have at least two registered grand calves
8. Once a cow is designated a Premier Cow, she is always an Premier Cow, however she will not be published in a year where she does not meet the above criteria.

First Three Decades (1963-1997)

The Jay En Dee herd goes back to 1963 with the purchase of 5 registered Angus heifers from Bell Brothers of Pense, SK. They were the tall and long heifers that they culled for the "pony-type" in those days. The first sire we bred these heifers to was Misty Moore Bestman 16Z ~ he had stretch and height.

In 1966 the Grand Champion bull was a 2 yr old and he stood lower than a yearling bull now a days. In 1967 we went to the Denver Angus show and there too, were the pony-type Angus.

In 1967 we moved to Consul and sold many bulls in that part of the country. The kids got involved in the 4-H Club with showing heifer calves, which was good advertisement. We took bulls to Swift Current bull sales for a few years where we always placed 1st or 2nd in the Angus division.

2020
Johnny, Don & Florence standing with the South Shadow "G" heifers - 23 years after the last of the Jay En Dee calves were registered

About that time the Angus Association ROP testing came into being. Weight data was submitted with EPDs also realizing their first usage.

In 1969 the exotics came in. That is when the Angus people woke up and put more height and length in the Angus. We used A.I. with great success. We could breed to the best genetics available in the industry.

In 1979 we took Jay En Dee Cerelia 7L to Saskatoon Winter Fair where she was named Champion Heifer, Grand Champion Angus and Supreme Champion over All Breeds. The same year at Agrition she was Champion Heifer and Reserve Grand Champion and at Swift Current Frontier Days she took Grand Champion in the Angus Show. We also raised Jay En Dee Mandy 49S which was the mother of Classic, who placed Grand Champion bull at the Iowa State Fair at 7 months old. He garnered a six-figure sale price (mid 1980s). Mandy 49S sold for a five figure price to Shadybrook Angus in Texas (we sold her as a yearling to a group partnership). She is found on the bottom side of the S A V [Blackcap] May progeny (Net Worth/Density/Reign/President etc...).

We used Marshall Pride 1749 heavily in our herd as he was a super bull with good temperament, easy-fleshing ability, good feet and put milk in his offspring.

Our goal with the Angus was to select cattle that grew rapidly with high performance, physical soundness, quiet to handle, easy-fleshing, calving-ease and longevity like Jay En Dee Blackbird 11W who lived to 19 years of age and never missed a calving season. Jay En Dee Eileen 36D was another cow that contributed heavily to the Delorme pedigrees over her 17 year lifespan. These were the goals that drove Jay En Dee Angus in our selection process.

Part of the herd was sold in 1993 to Don, Connie, Darby and Kalee, where South Shadow Angus herd came about. Darby's daughters, Isabella and Mackayla are now using Jay En Dee Angus as their herd prefix. A special thanks to South Shadow Angus for keeping up with our goals in the Angus World.

(1993 to ??)

Don was only six years old when his parents purchased the first registered females for their Jay En Dee program. Thirty years ago, in 1993, we, Don and Connie purchased our first registered cows from his parents and chose the herd name of South Shadow with a SSA tattoo. Four years later we purchased most of their very last registered calf crop of 'G's girls. Six decades in total – a lot has happened since 1963 and these anniversaries are always a great time to reflect on the past and look (the word "work" is perhaps more fitting) forward to the future.

Our Roots run deep ... Our Traditions stand strong.

Most of those Jay En Dee cows going into the South Shadow herd, were some of the older cows and Don selected them because he figured if they were still producing at this age, there must be a reason. This area's short-grass environment typically calls for a moderate framed cow that can cover the distance to limited water holes in multi-section pastures. These mamas have a depth of pedigree resulting from years of production effort. You'll still find an original Jay En Dee cow on the papers of the cows walking our fields today- a testament to the fact that they are preceded by aged cows that produced well into their late teens. She has the ability to reproduce herself or better while maintaining do-ability, flesh, calving-ease and most importantly, breeding back ... consistently and efficiently. Our herd dynamics and production stays progressive by using AI service and walking bulls on 150+ head of females. Sire selection never sacrifices maternal traits; whether you are looking for calving ease or performance, our sale bulls will have sisters retained for our own cowherd.

Eleven years of private treaty sales moved our breeding bulls into rancher's cattle herds previous to our 2005 inaugural "Your Choice Bull Sale" held at Maple Creek's Cowtown Livestock. We are very proud of the fact that our genetics have played a role in many commercial programs that are successful in an exceedingly demanding industry. Six decades of consecutive registries and bulls sales is only made possible by the support of great costumers. From 2005 to present: 67% of the bulls have gone to repeat customers with the last four years averaging 80%.

Our family also runs a herd of commercial Black Angus cows which also have deep roots in our family, since 1948 in fact! Please refer to page 39 for information about our commercial herd and the reputation one iron heifers we offer.

We are very fortunate to have our son and his wife Sarah and girls: Isabella and Mackayla live and work, side by side and help each other on a daily basis. Connie's parents are still actively farming and are inclusive of what gets done on any given day. Kalee and her family live nearby, in Consul, and every opportunity for the kids to visit (or be put to work) is loved and appreciated.

Everything we have as a family has been accomplished through ownership of Angus cattle. They have given us a comfortable life in which we raised our family of four which has grown to eleven with the six grandkids. We look forward to a future where South Shadow adds to the next generations of Delorme Angus herds; Darby and Sarah's Boundary herd (est: 1999) and coming full circle is Jay En Dee (est: 2009) ~ this time as our granddaughter's Isabella and Mackayla's. Kalee registers under the name Kay Dee (est: 1999) with her children; Nevaeh, Aeverie, Oskar and Ole's cattle registering under Prairie Pride (est: 2009), which was the 1970's herd name of Connie's parents, Alfred and Josephine Wardberg's Angus herd.

We are proud of our family, our program, and our cow herds and honoured to be part of Angus History in Canada!

For over 30 years we have been shaping up an APHA/AQHA breeding herd and raising all-a-round, versatile, performance horses for the ranch and for the arena. The ranch raised weanlings, yearlings and riding horses are valued by their new owners and excel in all areas of the equine industry. We currently stand 3 stallions, who along with our mare's quality, are keeping the bone, size and disposition on what we offer you.

Commercial Open Replacement Heifers By Private Treaty At The Ranch

COMMERCIAL OPEN REPLACEMENT HEIFERS

Spring Offering of 40 Heifers ~ by Private Treaty

From the Delorme and Wardberg commercial herds is the 37th Annual offering of Black yearling heifers.

Straight Black Angus & Black Simmental/Angus

Contact us for the details

1948: the year Grandpa (Ole) Wardberg brought the first Black Angus females to this area. Four generations later and we still look across our fields at straight black angus cows. You'll have the opportunity to purchase from 40 home-grown Black replacement heifers.

Half of the commercial herd are bred Black Angus, the other half, Black Simmental from Darby and Sarah's registered Boundary herd. This will be our 37th annual offering of straight-bred Angus females with 2023 marking the 13th offering of the F1 crossbred Black Simmental/Angus Heifers.
